The second order of business is consideration of the minutes of the June 3, 2016 meeting.

The third order of business deals with two (2) required Public Hearings to consider the adoption of the District's Fiscal Year 2018 Budget, Assessments, General Fund Special Assessment Methodology.

The first Public Hearing deals with the adoption of the Fiscal Year 2018 Budget which includes both the General Fund operations and the Debt Service Fund for the Series 2013 A-1 – A3 Bonds. At the conclusion of the hearing, will be consideration of Resolution 2018-6 which adopts the Fiscal Year 2018 Budget. The only change to the budget is to now include the Phase III plat into the assessment roll and budget, and there have been no changes to the budget itself.

As is usual, the enclosed budget has now split the amounts that will be billed on-roll and direct billed to the Developer in all the funds. Essentially, in the General Fund and the Series 2013 A-1 Bonds, all platted unit's are billed on-roll and all unplattd acres will be direct billed, Subsequent to adoption of the budget, the resolution provides the Manager's office to continue to update the roll as property is sold, until the District is required to certify the roll to the Manatee County Property Appraiser, which is generally in early September of each year. For the Series 2013 A-2 and A-3 bonds, these will all be billed directly by the District.

This second Public Hearing is a consequence of the Budget Adoption process and sets in place the required documents that are all contained in the Fiscal Year 2018 Budget. Resolution 2017-7 does essentially three (3) things. First, it imposes the special assessments for the general fund and the debt service fund; second, it arranges for the certification of an assessment roll by the Chairman or his designee, which in this case is the District Manager, to the Manatee County Tax Collector and permits the District Manager to update the roll as it may be modified as limited by law subsequent to the adoption date of Resolution 2017-7 and finally it approves the General Fund Special Assessment Methodology.

The fourth item is consideration of Resolution 2017-8 setting the proposed meeting schedule for Fiscal Year 2018. As you may re-call, to the extent that the District has a regular meeting schedule the District is required to advertise this schedule (legal advertisement) on a periodic basis at the beginning of the Fiscal Year.

The proposed meeting schedule is at **3:30 P.M. at the Artisan Lakes Clubhouse, 4725 Los Robles Court, Palmetto, Florida 34221.**

The Fiscal Year 2018 schedule is as follows

October 5, 2017	November 2, 2017
December 7, 2017	January 4, 2018
February 1, 2018	March 1, 2018
April 5, 2018	May 3, 2018
June 7, 2018	July 5, 2018
August 2, 2018	September 6, 2018

The ninth order of business is the start of the process by the District to levy capital assessments on certain properties to finance the capital improvement program for the District.

In order to start the process, the District authorized Waldrop Engineering to prepare an engineering report that outlines the capital improvement plan for the entire District and my firm to prepare the assessment methodology for the issuance of the Phase IV – Series 2017 Bonds, and what is required for the phase of development that would coincide with the first financing that the District would undertake.

The first step is for Waldrop Engineering to describe the overall capital improvement program and the phasing plan for the capital improvement program.

Subsequent to that presentation, I will review the special assessment methodology, and finally the Board will consider Resolution 2017-9 is a Resolution of Intent to Levy, and simply means that the Board desires to proceed with the public hearing to levy assessments to fund the capital improvement program, included in this resolution, is a provision that provides notice of the public hearing on the proposed assessments.

The remainder of the Agenda is standard in nature, and in the meantime, if you have any questions or comments, please do not hesitate to contact me directly at (954) 658-4900.

Yours sincerely,
Artisan Lakes
Community Development District

James P. Ward

--------------	-----------------

FIRST ORDER OF BUSINESS

Call to Order/Roll Call

Mr. Ward called the meeting to order and all members were present at roll call with the exception of Supervisor Stokes

SECOND ORDER OF BUSINESS

Consideration of the Minutes

Mr. Ward stated two sets of minutes were in need of approval, the regular meeting and the landowner meeting which were both held on November 3, 2016. He called first for any additions, corrections or deletions to these minutes. Mr. Humpherys mentioned the correct spelling of his name which was noted.

On MOTION made by Mr. Miller, seconded by Mr. Humpherys, with all in favor, the Minutes of the regular meeting on November 3, 2016, were approved.

Mr. Ward stated next to be approved were the landowners' meeting minutes. He called for any additions, corrections or deletions to these minutes.

On MOTION made by Mr. Humpherys, seconded by Mr. Miller, with all in favor, the Minutes of the landowners' meeting on November 3, 2016, were approved.

THIRD ORDER OF BUSINESS

Consideration of the Ranking of Engineering Proposal to Serve as District Engineer and Agreement with Waldrop Engineering

Mr. Ward stated at the last meeting the Board had terminated the services of Stantec and authorized the staff to send out requests for qualifications. He said one proposal had been received from Waldrop Engineering. He said it was a non-priced based proposal. Mr. Ward further stated as the Board had received only one proposal, they could reject it, and repeat the process or they could rank the Waldrop proposal number 1.. He said if the Board ranked Waldrop as number one, then the Engineering Services Agreement could be done which staff placed on the Agenda, if the Board choose to rank Waldrop Number 1..

Mr. Humpheryss stated as they were the engineers for the project, unless there was some reason to object, he did not have any objections. Mr. Ward then asked for a motion.

On MOTION made by Mr. Humpherys, seconded by Mr. Painter, with all in favor, the ranking of Waldrop Engineering as Number 1 to serve as District Engineers was approved.

Mr. Ward said in anticipation of this decision, he and Mr. Earlywine had prepared the Master Engineering Service Agreement which stated the engineer would give the CDD a work authorization each time work needed to be done. In addition, he stated the engineer would come to Board meetings and provide for the ownership of documents which belonged to the District, and the documents would become part of public records. He distributed an hourly rate fee schedule provided by Waldrop Engineering, and he commented that the fees were consistent with other engineering firms. Mr. Ward called for questions.

A question was asked about the fee because he could not tell what it might be from the schedule that had been distributed.

Mr. Stokes joined the meeting at approximately 3:06 P.M.

It was stated that as work projects arose, the firm would complete and submit a specific proposal. Mr. Ward said he did not believe they would exceed the budget.

Jeremy Fireline who would be the engineer for the District was present. He was asked what his hourly fee might be. He responded he was not sure as it varied, but he would be happy to provide that information.

A Board member stated he wanted to be sure the new fees were consistent with the last Engineer, and Mr. Ward said they were; and if it became a problem, he would inform the Board. It was added that some of the work Engineers do was covered by bonds and would not impact the Board's budget.

Mr. Ward called for further discussion and hearing none, called for a motion.

On MOTION made by Mr. Miller, seconded by Ms. Goldstein, with all in favor, the Master Engineering Services Agreement and Work Authorization #1 were approved.

FOURTH ORDER OF BUSINESS

Consideration of Resolution 2017-5 Approving the Proposed Budget for Fiscal Year 2018 and Setting a Public Hearing.

Mr. Ward said Resolution 2017-5 approved the budget and scheduled a public hearing for Tuesday, August 22, 2017, at 3:30 P.M. at the Artisan Lakes Clubhouse, 4725 Los Robles Court, Palmetto, Florida 34221.

Mr. Ward explained the budget was comprised of two parts: the General Fund, which has stayed exactly the same as prior years, and the Debt Service Fund, which included the A1, A2, and A3 bonds. He said this was also consistent with what had been seen in the past and basically he was saying the rates would remain the same. He called for questions.

Mr. Humpherys asked about Debt Service Fund. Mr. Ward said the amount of revenue generated was a fixed amount for the entire community and not based on sales, but based on planned units.

Various other items in the budget were discussed, and Mr. Ward give further details and explanations on these items.

Mr. Humpherys asked if Restricted for Future Operations was cash, and Mr. Ward responded affirmatively. Mr. Ward said to be frank he did not know why that operating item was put there. Mr. Humpherys said the Board might want to consider not having it or not growing it. Mr. Ward said he suspected the HOA had reserves for Operations, but said he would leave the amount for now, but did not see a reason to grow it. He said it was one of those items to be evaluated on a yearly basis.

Mr. Ward called for a motion to adopt the Resolution.

On MOTION made by Mr. Miller, seconded by Ms. Goldstein, with all in favor, Resolution 2017-5 as described above was approved.

FIFTH ORDER OF BUSINESS**Staff Reports**

- a) District Attorney No report.
- b) District Engineer No report.
- c) District Manager

Mr. Ward stated that the Statute required that the District to report on the number of registered voters. He stated there are 235 Registered Voters. He said the number of registered voters was slightly lower than required. He noted that when two thresholds were reached: 1. 250 qualified electors; 2. Six years from the date of establishment then the Board would begin the transition to a qualified based election. He said they had reached the second one and would most likely reach the first one in 2018, which would mean two of the members of the Board would be elected by qualified electors.

Mr. Ward also noted that the Board should have received from the Supervisor of Elections in the County in which they reside, the Form 1, Financial Statements had been sent to the Board and he urged them to complete them on time which was July 3, 2017.

SIXTH ORDER OF BUSINESS**Supervisors' Requests and Audience Comments**

Mr. Ward asked if there was any business from the Board.

Mr. Truxton in the audience said in August or September, there would be a hearing to record a plat which would be for 424 units to Artisan Lakes under a separate association known as Eaves Bend. He said the debt totals for the bonds would be kept at the same level as the A1 series bonds. He said as the developers, they would be working with District Counsel, Bond Counsel and the District Manager.

Mr. Ward said one final item, Elden McDirmit with McDirmit Davis was on the phone to review the audit.

Mr. McDirmit stated he would take them through the report and highlight a few things. He said on Page 1 and 2, it should be noted the audit indicated a clean report. He reviewed and highlighted the remainder of the report. He said finally that there were no comments that his firm needed to report to the Auditor General.

There was no discussion of the report.

On MOTION made by Mr. Miller, seconded by Mr. Painter, with all in favor, the 2016-17 Audit was approved.

SEVENTH ORDER OF BUSINESS

Adjournment

The meeting was adjourned at 3:25 P.M.

On MOTION made by Mr. Stokes, seconded by Mr. Painter, with all in favor, the meeting was adjourned.

SPECIAL ASSESSMENT METHODOLOGY

1.0 PURPOSE

This report is intended to introduce to the Artisan Lakes Community Development District an operations methodology to fund the annual operations and maintenance requirements for the District. The methodology will outline the properties within the District that are subject to the Assessment and the benefit conferred on each property by the services and projects provided by the District's operational and maintenance activities. This report covers the District Fiscal Year 2018, which begins on October 1, 2017 and ends on September 30, 2018.

The Methodology will have two (2) primary objectives: (1) to determine the special and peculiar benefits that flow to the assessable properties in the District; and (2) apportioning the proportionate benefits on a basis that is fair and reasonable. The Methodology herein is intended to set forth a framework to apportion the costs associated with the operations and maintenance expenditures benefiting properties on a fair and equitable apportionment. The report is designed to conform to the requirements of Chapter's 189, 190 and 197, Florida Statutes and is consistent with the District's understanding of the case law on this subject.

2.0 BACKGROUND

The Artisan Lakes Community Development District ("District") is an independent local unit of, special-purpose government, created pursuant to and existing under the provisions of Chapter 190, Florida Statutes, and established by Ordinance 07-64, adopted of the Board of County Commissioners of Manatee County, Florida which became effective on August 16th, 2007.

The District currently encompasses approximately eight hundred fifty-four (854.285) acres of land located entirely within Manatee County, Florida. As a local unit of special-purpose government, the District provides an alternative means for planning, financing, constructing, operating and maintaining various public improvements and community facilities within its jurisdiction.

A District provides the "solution" to Florida's need to provide valuable community infrastructure generated by growth, ultimately without overburdening other governments and their taxpaying residents. Community Development Districts represent a major advancement in Florida's effort to manage its growth effectively and efficiently. This allows

a community to establish higher construction standards, meanwhile providing a long-term solution to the operation and maintenance of the community's facilities.

3.0 REQUIREMENTS FOR A VALID ASSESSMENT METHODOLOGY

Valid assessments under Florida Law have two (2) requirements. First, the properties assessed must receive a special and peculiar benefit as a logical connection from the systems and services constituting improvements. The courts recognize the special benefits that flow as a logical connection peculiar to the property which in turn may result in decreased insurance premiums, increased value and marketability. Second, the assessments must be fairly and reasonably apportioned in relation to the benefit received by the various properties being assessed.

If these two tests for lienability are determined in a manner that is informed and non-arbitrary by the Board of Supervisors of the District, as a legislative determination, then the special assessments may be levied, imposed and collected as a first lien on the property. Florida courts have found that it is not necessary to calculate benefit with mathematical precision at the time of imposition and levy so long as the levying and imposition process is not arbitrary, capricious or unfair.

4.0 ASSESSMENT ALLOCATION STRUCTURE

Special and peculiar benefits flow as a logical connection to the property from the operation and maintenance related services provided as a logical consequence to the property within the boundary of the District. These special benefits are peculiar to the acreage and later down to the actual platted units or parcels. The special benefits that justify imposing the assessment on the acreage include enhanced enjoyment and increased use, which may result in such positive consequences as increased value and marketability and decreased insurance premiums when levied on the various platted units or parcels of property.

5.0 ASSIGNMENT OF ASSESSMENTS

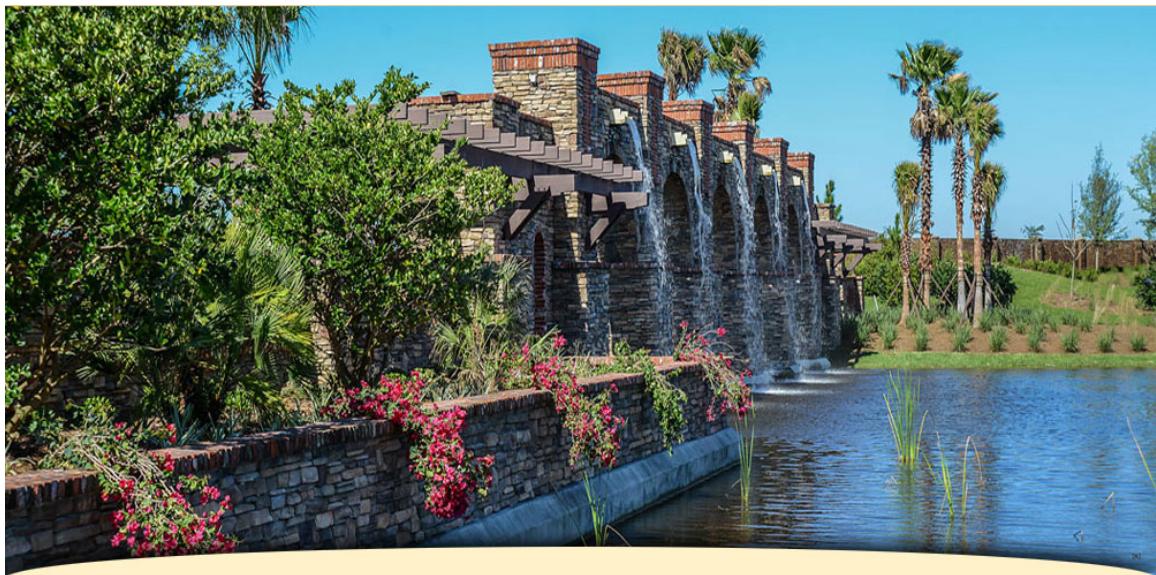

The apportionment of benefit in such a methodology report is based on accepted practices for the fair and equitable apportionment of special benefits in accordance with applicable laws and the procedure for the imposition, levy and collection of non ad valorem special assessments as set forth in the District Act and in conformity with State Laws applicable to such assessments.

The standard assessment analysis utilizes an allocation based upon the benefit that a property receives from each separate component of the District's O&M activities. The Fiscal Year 2017 General Fund Budget is financial and administrative in nature so the assessments

should be based equally and ratably on an equivalent number of residential units assigned to the property. As such, each benefitted, residential unit (as identified in the assessment roll) is assigned one Equivalent Residential Unit (ERU).

6.0 ASSESSMENT ROLL

As described above, the allocation associated with the District's General Fund Activities are distributed across all assessable, benefitted units within the boundaries of the District. Table 1 provides the assessment roll based on updated parcel account information provided by the Manatee County Property Appraiser's office assigning the appropriate parcel identification numbers for the lands currently platted within the boundaries of the District. A portion of the developable land is platted and the appropriate parcel identification numbers assigned by the Property Appraiser are known, the following table will only be updated to reflect any changes in ownership within the boundaries of the Development.

INTRODUCTION

Artisan Lakes Community Development District (the "District") is located within the Gateway North Development of Regional Impact, also known as Artisan Lakes ("Artisan Lakes") in northern Manatee County in Sections 9,16, and 17, Township 33 South, Range 18 East, Manatee County, Florida. Esplanade at Artisan Lakes ("Esplanade") is an 807-lot development containing 398 +/- acres completely within the District boundary. The main access to Esplanade is via a main entrance roadway, Artisan Lakes Parkway, connecting to Moccasin Wallow Road to the south. The District, established in accordance with applicable Florida Statutes as a Community Development District, which is a local unit of special-purpose government, encompasses approximately 854 +/- acres. The lands constituting the District are presently intended for the development of Artisan Lakes. The majority of all construction and development activities associated with Artisan Lakes is wholly contained within the limits established for the District. Off-site intersection improvements have been completed on Moccasin Wallow Road, including widening, construction of turn lanes, and signage and striping. No other off-site transportation improvements are required for the completion of Esplanade.

This supplement is to the Report of the District Engineer - Phase 1 Capital Improvement Plan, dated July 23, 2007 and as previously supplemented November 15, 2013 and November 26, 2013 ("Original Engineer's Report"), which originally described the capital improvement plan ("Esplanade CIP") for what is known as "Esplanade" or "Phase 1."¹ As the Esplanade CIP has been implemented, different lot counts and types have been developed, resulting in changes to the Esplanade CIP. Consequently, this supplement updates the Original Engineer's Report to account for the changes made to date, and to address a revised plan for the balance of Esplanade. The District originally issued its Capital Improvement Revenue Bonds, Series 2013 in order to finance a portion of the Esplanade CIP, and now anticipates issuing additional debt to finance certain of the revised Esplanade CIP, as set forth herein. Further, the Esplanade CIP is only a portion of the District's overall capital improvement plan, which overall plan may be addressed separately in reports issued in connection with future bond issuances.

¹ The term "Phase 1" in prior reports referred to the Esplanade development. However, Esplanade itself has phases of its own. To avoid confusion, the 398-acre Esplanade development is referred to only as Esplanade herein, and any reference to phases are to phases within Esplanade itself.

PURPOSE and SCOPE

The District was established for the purpose of financing, acquiring, constructing, maintaining and operating all or a portion of the public infrastructure necessary for the community development within the District. The purpose of this report is to update progress on the Esplanade Capital Improvement Plan (“Esplanade CIP”) and provide a description of the infrastructure improvements necessary for future development activities including those to be financed and/or acquired by the District. The District will finance, acquire and/or, construct, operate, and maintain a portion of the infrastructure improvements that are needed to serve the Esplanade and allocate the costs for the infrastructure improvements. A portion of these public infrastructure improvements will be completed by Taylor Woodrow Communities at Artisan Lakes, LLC. (the “Developer”), the primary developer of Artisan Lakes (the “Development”), and will be acquired by the District with proceeds of bonds issued by the District. The Developer will finance and construct the balance of the infrastructure improvements needed for the development that is not financed by the District.

The proposed infrastructure improvements, as outlined herein, are necessary for the functional development of the District as required by the applicable independent unit of local government.

The Engineer's Report reflects the District's present intentions. The implementation and completion of the CIP outlined in this report requires final approval by the District's Board of Supervisors, including the approval for the purchase of site related improvements. Cost estimates contained in this report have been prepared based on the best available information, including bid documents and pay requests where available. These estimates may not reflect final engineering design or complete environmental permitting. Actual costs will vary based upon final plans, design, planning, approvals from regulatory authorities, inflation, etc. Nevertheless, all costs contained herein, may be reasonably expected to adequately fund the improvements described, and contingency costs as included are reasonable.

CAPITAL IMPROVEMENT PLAN

The District's Esplanade CIP for Esplanade includes completed and planned infrastructure improvements that will provide special benefit to all assessable land within Esplanade. In particular, the Esplanade CIP includes: (i) improvements within Esplanade such as the stormwater management system, wastewater system, and water distribution system, (ii) portions of Artisan Lakes Parkway, (iii) certain other off-site improvements, and (iv) soft costs such as professional fees and permitting costs.

The first phase of Esplanade² as platted includes 182 lots and the first phase of Artisan Lakes Parkway were completed in 2013 and acquired by the District. The infrastructure acquired included the storm sewer system, gravity sanitary sewers and sanitary force mains, and the potable water mains within Esplanade as well as the storm sewer system, gravity sanitary sewers and sanitary force mains, potable water mains, roadway and pavement, landscape/hardscape/irrigation and street lights in the first phase of Artisan Lakes Parkway. An offsite 27" gravity sanitary sewer that conveys wastewater from Artisan Lakes to a Manatee County master lift station was also acquired by the District. The total value of these improvements was \$9,769,458.88. Partial payment for this acquisition was funded through the issue of a series of Bonds in 2013 (the "Series 2013 Bonds") in the par amount of \$8,515,000. All sewer and water utilities, within and outside of Esplanade, acquired by the District were dedicated to Manatee County for maintenance. The roadway and related storm sewer in Phase I of Artisan Lakes Parkway was dedicated to Manatee County for maintenance provided however that the District maintains the landscaping, irrigation, hardscaping and street lights within Artisan Lakes Parkway.

The second phase of Esplanade³, including 46 lots, was completed in 2015. The District acquired the potable water mains and gravity sanitary sewers through a Bill of Sale. The total value of the acquired infrastructure was \$145,548.45. Payment from the District to the Developer for this infrastructure has not yet been funded. The acquired infrastructure was dedicated to Manatee County for maintenance.

² The first phase of Esplanade is identified in the plat known as "Artisan Lakes Esplanade, Phase I, Subphases A, B, C & D," ("Esplanade Phase 1 Plat") which was recorded on August 26, 2014 and in Official Records of Manatee County, Florida at Plat Book 57, Pages 65 et seq.

³ The second phase of Esplanade is identified in the plat known as "Artisan Lakes Esplanade, Phase II," which replatted a portion of Esplanade Phase 1 Plat and which was recorded on October 30, 2015 and in Official Records of Manatee County, Florida at Plat Book 59, Pages 1 et seq.

The third phase of Esplanade, including 160 lots, is currently in the final stages of completion. The District will acquire the potable water mains, gravity sanitary sewers, and storm sewer through a Bill of Sale from the Developer. The total value of the infrastructure to be acquired is estimated to be \$1,101,349.00. The water and sewer utilities acquired will be dedicated to Manatee County for maintenance.

The remaining 419 lots in Esplanade will be developed in future phases. The District may acquire all or a portion of the storm sewer system, gravity sanitary sewers and/or sanitary force mains, and potable water mains in the future phases of development. Altogether, the cost of the applicable improvements and work product acquired by the District to date is \$9,915,007.33, of which the District has paid \$6,991,448.50, and recognized a contribution to offset certain assessments of \$64,161.81, leaving the amount of \$2,859,397.02 payable to the Developer for the prior acquisitions.

The 2017 Project includes the \$2,859,397.02 payable to the Developer for work previously completed as well as the \$1,101,349.00 for work completed in the third phase of Esplanade.

The estimated total cost of the CIP for Esplanade is \$32,428,305, which includes both public improvements and Developer contributions for all costs incurred to date as well as future estimated costs. Refer to Exhibit B for a summary of the costs by infrastructure category for the completed and planned CIP expenditures.

The CIP status, along with anticipated completion timeline is presented below.

<u>Construction Phasing</u>	<u>Estimated Completion Date</u>
Phase I	December 2013
Phase II	2015
Phase III	February 2018 (estimated)

Remaining Esplanade Lots	2023

GOVERNMENTAL ACTIONS

The Developer received revised zoning approval from Manatee County on May 11, 2016 (PDMU-91-01(G)(R6). The District was established by the Manatee County Board of County Commissioners through Ordinance No. 07-64 on August 20, 2007.

The zoning approval for Artisan Lakes (which includes all of the District Area as well as area outside the district) allows for a maximum of 2,800 residential units including conventional attached, detached and multi-family residential single-family dwellings with accessory parks and an amenity center. The current plan of development is to construct individual "stand-alone" neighborhoods within Artisan Lakes; Esplanade being one of the neighborhoods consisting of 807 single family detached units. The permit status for the development is summarized in Exhibit "A" included with this report. All permits for onsite improvements have been obtained or are being renewed/revised from the applicable agencies. The required off-site improvements on Moccasin Wallow Road to support development of all 807 units in Esplanade have been completed.

Compliance with the conditions of the zoning approval and permitting requirements is currently being accomplished. It is our opinion that there are no technical reasons existing at this time which would prohibit the implementation of the plans for the Development as presented herein and that permits normally obtained by site development engineers not heretofore issued and which are necessary to effect the improvements described herein will be obtained during the ordinary course of development.

LAND USE

As stated, Esplanade includes approximately 397.7 acres within the District's total 854 +/- acres. The District is approved to ultimately include 2,800 single-family residential units. Esplanade is planned to include 807 single family units. The table below illustrates the current land use plan in acreage for Esplanade and the District as a whole. The 2017 Project includes improvements lying within a portion of the 397.7 acres in Esplanade. Such information is subject to change.

ROADWAYS

Primary vehicular access to the District is provided from Moccasin Wallow Road, which is currently a rural two-lane collector road that runs in an east/west direction. Internally, a four lane boulevard roadway, Artisan Lakes Parkway, is being constructed in three phases to provide access to individual neighborhoods in the District. The first phase of Artisan Lakes Parkway between Moccasin Wallow road to the main entrance into Esplanade has been completed. The second and third phases of Artisan Lakes Parkway are being completed with other projects and are not included in the Esplanade CIP. Artisan Lakes Parkway will be dedicated to Manatee County upon completion. All other roads within Esplanade are to be private and will be funded by the Developer and dedicated to the Homeowner's Association for ownership and maintenance.

UNDERGROUND AND STREET LIGHTING ELECTRICAL SYSTEM

The District lies within the area served by the Florida Power and Light (FP&L) service area. FP&L will provide underground electric service to the site from lines located within the public right-of-way of Artisan Lakes Parkway, which have been extended from Moccasin Wallow Road. The District's internal electrical distribution system will consist of underground cable with appurtenant transformers and service pedestals for street light locations. These infrastructure improvements may be funded by the District.

STORMWATER MANAGEMENT

Manatee County and the Southwest Florida Water Management District (SWFWMD) regulate the design criterion for the stormwater management system within the District. The District is located within the Fishhawk Creek basin. The pre-development site runoff and water management conditions have been developed by Manatee County and SWFWMD. The existing, onsite, naturally occurring wetlands have been delineated by SWFWMD and the Manatee County Environmental Resources Department.

The Stormwater Management Plan for the District focuses on utilizing newly constructed ponds in the uplands for stormwater treatment in conjunction with the naturally occurring wetlands.

The primary objectives of the stormwater management system for the District are:

1. To provide a stormwater conveyance and storage system, which includes stormwater quality treatment.
2. To adequately protect development within the District from regulatory-defined rainfall events.
3. To maintain wetland hydroperiods.
4. To ensure that adverse stormwater impacts do not occur upstream or downstream as a result of the development.
5. To satisfactorily accommodate stormwater runoff from adjacent off-site areas that naturally drains through the District. Accommodating existing drainage conditions is a requirement of more than one regulatory agency and is an integral part of the infrastructure improvements constructed with development projects.

6. Preserve the function of the floodplain storage during the 100-year storm event.

The stormwater collection and outfall systems will be a combination of curb inlets, pipe culverts, control structures and open waterways. Wetland hydroperiods (normal pool and season high water elevations) will be maintained through proper design and maintenance of the outfall control structures. It will be the responsibility of the District to maintain the stormwater system and ensure its operation.

WASTEWATER COLLECTION

The District is within the Manatee County service area with wastewater treatment service to be provided by the Manatee County Public Works Department. The North Manatee County Treatment Facility will serve the District. The District connects to an existing Manatee County master pump station located at the southeast corner of Artisan Lakes. Wastewater service of the District's onsite sewer system has been approved by Manatee County through a "Concurrency" Certificate Level of Service ("CLOS"). This CLOS verifies capacity to serve the development permitted in PDMU-91-01(G)(R6). Esplanade's onsite sanitary sewer system consists of 8" gravity collection lines with appurtenant manholes, two pump stations, and an 8" force main that drains into a 27" gravity sewer main that conveys waste water flows from the District to the Manatee County master pump station. All wastewater collection mains and pump stations will be dedicated to Manatee County for maintenance.

WATER DISTRIBUTION SYSTEM

The District lies within the Manatee County service area with potable water service to be provided by the Manatee County Public Works Department. The District will be served from the 30" potable water line located within the Moccasin Wallow Road right-of-way adjacent to the south boundary of the District. The current and future water distribution systems within the project consist of 16", 10", 8", 6" and 4" water mains with appurtenant valves and fire hydrants. All potable water mains will be dedicated to Manatee County for maintenance.

LANDSCAPING, IRRIGATION, HARDSCAPING & STREET LIGHTS

Significant landscape features and associated irrigation systems are planned for Esplanade. Entry monumentation, landscaping, irrigation, hardscaping and street lighting within the first phase of Artisan Lakes Parkway have been complete and acquired by the District. Landscaping and irrigation within Esplanade's main roadways in Phase I and Phase II have been completed. Landscaping and irrigation within Phase III roadways has been partially completed and will continue concurrent with construction of Phase III infrastructure. Landscaping and irrigation within Esplanade will not be funded by the District. Landscaping is maintained by the Homeowner's Association by agreement with the District.

RECREATIONAL FACILITIES

Esplanade will include one larger, centrally located amenity center which will replace the current temporary amenity center, which is located at the south end of Artisan Lakes, and which is adjacent to, but outside, the District's geographic boundaries. The new amenity center will be private and exclusively serve residents of Esplanade. Specific features will include tennis courts, a club house, teaching kitchen, tiki bar, lagoon pool and various walking paths.

CONTINGENCY

This category includes the cost for adjustments as a result of unexpected field conditions, requirements of governmental agencies and other unknown factors that may occur throughout the course of development of the infrastructure. In general, the contingency amount is based on a percentage of the total Infrastructure cost estimate.

PROFESSIONAL FEES

Professional fees include civil engineering, costs for site design, permitting, inspection and master planning, survey costs for construction staking and record drawings as well as preparation of

preliminary and final plats, geotechnical cost for pre-design soil borings, under drain analysis and construction testing, and architectural cost for landscaping. Also included in this category are fees associated with environmental consultation and permitting and legal fees.

Esplanade. The maximum contribution from the Esplanade CIP toward the construction of Artisan Lakes Parkway from Moccasin Wallow Road to Buckeye Road is 45% of the estimated \$11,838,800 cost to complete. This allocation is based on the proportion of the total equivalent lots in Esplanade to the total equivalent lots project in the District at Build-out.

Private infrastructure includes landscaping/hardscaping, irrigation, internal roadways, excavation and grading, improvements for a temporary off-site amenity center (in another part of Artisan Lakes), and a permanent amenity center being constructed within Esplanade.

The Summary of Estimated Project costs, attached hereto as Exhibit B, outlines the anticipated costs associated with the construction and acquisition of public infrastructure within the Esplanade CIP for the Artisan Lakes Community Development District, as well as private infrastructure to be funded by the Developer.

The cost estimates set forth herein are estimates based on current plans and market conditions, which are subject to change. Accordingly, the ‘2017 Project’ as used herein refers to sufficient public infrastructure of the kinds described herein (i.e., stormwater/floodplain management, sanitary sewer, potable water, etc.) to support the development and sale of the planned residential units, which (subject to true-up determinations) number and type of units may be changed with the development of Esplanade.

SUMMARY AND CONCLUSION

The infrastructure, as outlined above, is necessary for the functional development of the District as required by the applicable independent unit of local government. The planning and design of the infrastructure is in accordance with current governmental regulatory requirements. The infrastructure will provide its intended function so long as the construction is in substantial compliance with the design and permits. The permits set forth in Exhibit A are sufficient for the Esplanade build-out described in the development plans. The platting, design and permitting of the site plan are ongoing at this time and there is no reason to believe such permitting will not be obtained.

Items of construction in this report are based on current plan quantities for the infrastructure construction as shown on the master plans, conceptual plans, construction drawings and specifications, last revisions. It is the professional opinion of Waldrop Engineering that the estimated infrastructure costs provided herein for the District improvements are reasonable to complete the construction of the infrastructure described herein and that these infrastructure improvements will benefit and add value to Esplanade, and the District. All such infrastructure costs are public improvements or community facilities as set forth in Section 190.012(1) of the Florida Statutes.

The infrastructure total construction cost developed in this report is only an estimate and not a guaranteed maximum price. The estimated cost is based on unit prices currently being experienced for ongoing and similar items of work in Manatee County and quantities as represented on the master plans. The labor market, future costs of equipment and materials, and the actual construction processes frequently vary and cannot be accurately forecasted. Due to this inherent opportunity for fluctuation in cost, the total final cost may be more or less than this estimate.

The professional services for establishing the opinion of estimated construction cost are consistent with the degree and care and skill exercised by members of the same profession under similar circumstances.

1.0 INTRODUCTION

This report is intended to stand alone as the initial allocation report for the District's special assessments ("Series 2017 Assessments") intended to finance the District's "2017 Project"¹ and secure the repayment of Series 2017 Bonds (defined herein) and is not an amendment, supplement, or restatement of the assessment methodologies considered and/or adopted by the District for previous financings.

The District's limited purpose is to manage the construction, acquisition, maintenance and financing of its public works including basic infrastructure, systems, facilities, services and improvements.²

When the District was initially established, a variety of public infrastructure improvements were constructed by the District, including but not limited to: a surface water management system, utilities, roadway improvements, exterior landscaping, off-site improvements and mitigation. The District has previously issued its Series 2013 Bonds (defined herein) to benefit portions of the District known as

¹ The 2017 Project is described in the District's 2017 Supplement to Report of the District Engineer - Phase 1 Capital Improvement Plan, dated August 22, 2017 ("2017 Engineer's Report").

² See Florida Statutes sections 190.002(1)(a) and (1)(c) and (3); Florida Statutes section 190.003(6); Florida Statutes section 190.012; and *State v. Frontier Acres Com. Develop.*, 472 So 2d 455 (Fla. 1985) in which the Florida Supreme Court opines about the "limited grant of statutory powers under chapter 190 [and] the narrow purpose of such districts" as "special purpose governmental units," where the narrow purpose is in the singular as applied to their powers in the plural. *Frontier Acres Com. Develop.*, at 456. The Supreme Court also references section 190.002, Florida Statutes, to "evidence the narrow objective" in providing community infrastructure in section 190.002(1)(a), Florida Statutes, opining that the "powers" of such districts "implement the single, narrow legislative purpose." *Id.* at 457.

“Esplanade,” and which are secured by special assessments³ levied on a mixture of residential unit types.

This report will identify the special and peculiar benefits for the works and services of the District’s 2017 Project, including added use of the property, added enjoyment of the property, and probability of increased marketability, value of the property and decreased insurance premiums. These benefits will be evaluated for each of the residential product types in order to ensure that the new assessments are fair, just and reasonable for all property.

2.0 THE DISTRICT AND BOND STRUCTURE

The District, which was established on or about August 16, 2007 by Manatee County Ordinance #07-64, is located near Bradenton, Florida, and currently encompasses approximately 854 acres planned for approximately 1,844 residential units.

The District is situated in the Gateway North Development of Regional Impact, an approved development of regional impact located at the northwest corner of the Moccasin Wallow Road and interstate 75 interchange in northeast Manatee County, Florida. The Gateway north DRI encompasses 1,040 acres and is bound on the east by Interstate 75, on the south by Moccasin Wallow Road, on the north by Buckeye Road and on the west by 40th Avenue East and undeveloped land. The development is one exit north of the Interstate 75 and Interstate 275 interchange and is located approximately twenty (20) minutes northeast of downtown Bradenton, approximately thirty-five (35) minutes southeast of downtown Tampa and approximately thirty (30) minutes northeast of Sarasota. In addition, the Sarasota International Airport and Tamp International Airport are located approximately twenty-five (25) minutes and forty (40) minutes from the Development, respectively.

³ The special assessments securing the Series 2013 Bonds are described in that Final Series 2013 Special Assessment Allocation Report, Phase 1 – Esplanade at Artisan Lakes, dated December 19, 2013, as revised December 26, 2013 (“Series 2013 Assessment Methodology”).

The District is intended to be developed in phases, the first of which is known as “Esplanade” and is located on the western portion of the District and encompasses approximately 398 acres. On or about October 12, 2007, the Circuit Court for the Twelfth Judicial Circuit validated the issuance of District Bonds in an amount not to exceed \$190,000,000.00. Thereafter, and on or about December 30, 2013, and in order to finance a portion of the District’s capital improvement plan for Esplanade known as the “2013 Project,” the District issued its \$3,430,000 Capital Improvement Revenue Bonds, Series 2013A-1 (“**Series 2013A-1 Bonds**”), \$2,585,000 Capital Improvement Revenue Bonds, Series 2013A-2 (“**Series 2013A-2 Bonds**”), and \$2,500,000 Capital Improvement Revenue Bonds, Series 2013A-3 (“**Series 2013A-3 Bonds**”) (collectively, “**Series 2013 Bonds**”). The Series 2013 Bonds were issued in the aggregate par amount of \$8,515,000.00. All of the Series 2013 Bonds are structured as amortizing current-interest bonds, with repayment occurring in thirty (30) substantially equal annual installments of principal and interest.

The Series 2013 Bonds are secured by debt service assessments (“**Series 2013 Assessments**”) levied on benefitted lands within Esplanade.

Under the Series 2013 Assessment Methodology, the Series 2013 Assessments securing the Series 2013A-1 Bonds and Series 2013A-2 Bonds are considered a single lien and were to be assigned to, and layered together over, platted lots on a first-platted, first-assigned basis. Originally, it was expected that the Series 2013A-1 and A-2 Assessments would be absorbed by the first 311 platted units. As of the date of this report, and since 2013, three plats have been recorded for the community, including the plats entitled: (i) “Artisan Lakes Esplanade, Phase I, Subphases A, B, C & D,” (“**Phase I Plat**”) which was recorded on August 26, 2014 and in Official Records of Manatee County, Florida at Plat Book 57, Pages 65 et seq.; (ii) “Artisan Lakes Esplanade, Phase II,” (“**Phase II Plat**”) which replatted a portion of Esplanade Phase 1 Plat and which was recorded on October 30, 2015 and in Official Records of Manatee County, Florida at Plat Book 59, Pages 1 et seq.; and (iii) “Artisan Lakes Esplanade Phase III, Subphases A, B, C, D & E” (“**Phase III Plat**”), which was recorded on April 28, 2017 and in Official Records of Manatee County, Florida at Plat Book 61, Pages 119 et seq. These plats include a unit mix that is different than the unit mix proposed at the time of the issuance of the Series 2013 Bonds.

After taking into account the platted units, the Series 2013A-1 Assessments are now fully absorbed by 352 of the Platted Units. There are an additional 35 remaining Platted 60’ Platted Units that will be immediately allocated Series 2017 Assessments, and the remaining Series 2017 Assessments will be assigned to the remaining unplatted acreage.

With respect to the Series 2013A-2 Assessments, the Developer has chosen to exercise its right to prepay those assessments upon closing of each lot to an end user. As of May 1, 2017 there is outstanding \$1,375,000.00 in Series 2013 A-2 Bonds.

It is anticipated that the Developer will do the same for the Series A-3 Assessments, which are to be allocated to platted lots in Esplanade only after the Series 2013A-1 and A-2 Assessments are fully allocated to platted lots. The Series 2013 A-3 Bonds are outstanding in the par amount of \$2,240,000.00.

With the Phase III plat now being recorded, and consistent with the Series 2013 Assessment Methodology, the Series 2013 A-3 Assessments will be assigned to the 35 remaining units in the Phase III Plat that are not already assigned Series 2013 A-1 and A-2 Assessments, as well as the remaining undeveloped lands within Esplanade. This is also reflected in Table 1. Accordingly, and with the Series 2013A-1 and A-2 Assessments fully absorbed, the Series 2013 A-3 Assessments will now be assigned on a first-platted, first-assessed basis to lands within Esplanade and will be layered (aggregated) with the Series 2017 Assessments outlined in this report. The Series 2017 lien is considered overlapping debt and will on par with the Series 2013 A-3 Bonds. This table reflects that 35 Platted Lots identified as Single Family 60' product will carry overlapping Series 2013 A-3 Assessments and Series 2017 Assessments.

The Series 2017 Bonds will also be structured as amortizing current-interest bonds, with repayment occurring in thirty (30) substantially equal annual installments of principal and interest.

3.0 PURPOSE OF THIS REPORT

This Special Assessment Report and the Methodology described herein have been developed to provide a roadmap and lays out in detail each step for use by the Board of Supervisors of the District (the “Board”) for the imposition and levy of non-ad valorem special assessments. The District’s 2017 Project, as defined in the 2017 Engineer’s Report, will allow for the development of property within Esplanade and will be partially or fully funded through the issuance by the District of the Series 2017 Bonds to be repaid from the proceeds of the Series 2017 Assessments levied by the Board on properties within Esplanade that benefit from the implementation of the 2017 Project. The 2017 Assessments will be liens against properties within Esplanade that receive special benefits from the 2017 Project.

The Methodology described herein has two goals: (1) determining the special and peculiar benefits that flow to the properties in Esplanade as a logical connection from the infrastructure systems and facilities constituting enhanced use and increased enjoyment of the property; and (2) apportion the special benefits on a basis that is fair and reasonable. The District has adopted the 2017 Project comprising certain public infrastructure and facilities that will allow for the development of property within Esplanade. The District plans to fund the 2017 Project, all or in part, through the issuance of the Series 2017 Bonds. The Methodology herein is intended to set forth a framework to

apportion the special and peculiar benefits from the portions of the 2017 Project financed with the proceeds of the Series 2017 Bonds payable from and secured by the Series 2017 Assessments imposed and levied on the properties Esplanade. The report is designed to conform to the requirements of the Constitution, Chapters 170, 190 and 197 F.S. with respect to the Series 2017 Assessments and is consistent with our understanding of the case law on this subject. Once levied by the Board, the Series 2017 Assessments will constitute liens co-equal with the liens of State, County, municipal and school board taxes, against properties within Esplanade that receive special benefits from the 2017 Project.

4.0 MASTER DEVELOPMENT PROGRAM

4.1 Land Use Plan

The anticipated Land Use Plan for the District is identified in Table II below, and constitutes the expected number of residential units to be constructed by type of unit by the Developer. As with any Land Use Plan, this may change during development, however, the District anticipates that in this methodology, by utilizing the concept that the assessments are levied on a per acre basis initially for all undeveloped lands, and as land is platted, the District assigns debt to the platted unit, based on the type of unit noted in the Land Use Plan in Table II below..

Table II - Land Use Plan					
Description	45-55'	50-55'	60'	70'	Total
Phase III	106	142	152	54	454
Total	106	142	152	54	454

As noted earlier, with the recordation of the Plat for Phase III, the District has fully absorbed the Series 2013 A-1 and Series 2013 A-2 Bonds, with 35 lots of the Single Family 60' product which will carry overlapping Series 2013 A-3 Debt, a shown in Tables I and III.

4.2 Capital Requirements

Waldrop Engineering (the “District Engineer”) has identified certain public infrastructure and services that are being provided by the District Phase III and future remaining lands to be platted in

Table IV and has provided a cost estimate for these improvements. The detail of the District's CIP can also be found in the 2017 Engineer's Report, as referenced herein.

It is estimated the cost of the 2017 Project will be approximately 6,908,000.00 without taking into consideration the various costs of financing the improvements, including but not limited to Capitalized Interest, Reserve Account Requirements and Costs of Issuance.

5.0 BOND REQUIREMENTS

The District intends to finance some or all of its 2017 Project through the issuance of the Series 2017 Bonds. As shown in Table V, it is estimated that the District may issue not exceeding an aggregate principal amount of \$8,080,000.00 in Bonds to fund the implementation of the 2017 Project, assuming all of the 2017 Project is financed. A number of items comprise the estimated bond size required to fund the Series 2017 estimated par amount of bonds necessary to complete the 2017 Project.

These items may include, but are not limited to, a period of capitalized interest, a debt service reserve, an underwriter's discount, issuance costs, and rounding, as noted in Table V.

As the finance plan is implemented the final source and use of funds will be determined at the time of issuance of the Series 2017 Bonds and is dependent on a variety of factors, most importantly, the interest rate that the District is able to secure on the Series 2017 Bonds, along with such items as the capitalized interest period, reserve requirement and costs of issuance.

6.0 ASSIGNMENT OF ASSESSMENTS

It is useful to consider three broad states or conditions of development within Esplanade. The initial condition is the "unplatted state". At this point infrastructure may or may not be constructed, but in general, home sites or other development units have not been defined and all of the developable land within the assessment area is considered unplatted acreage ("Unplatted Acres"). In the unplatted state, all of the lands within the assessment area receive benefit from all or a portion of the components of the financed capital improvement plan and debt assessments would be imposed upon all of the land within the assessment area on an equal acre basis to repay the bonds in amount not in excess of the benefit accruing to such parcels.

The second condition is the interim or "approved state". At this point, a developer would have received approval for a site development plan from the County. By virtue of the County granting an approval for its site development plan for a neighborhood, certain development rights are committed to and peculiar to that neighborhood, thereby changing the character and value of the land by

enhancing the capacity of the Unplatted Acres within a neighborhood with the special and peculiar benefits flowing from components of the capital improvement plan and establishing the requisite logical connection for the flow of the special benefits peculiar to the property, while also incurring at the same time a corresponding increase in the responsibility for the payment of the levied debt assessment to amortize the portion of the debt associated with those improvements.

Therefore, in the event that the District issues bonds which have or will benefit the lands within such area, the District will designate such area, or in combination with other such areas, as an assessment area, and, allocate a portion of this debt to such assessment area in the “approved state”.

This apportionment of benefit is based on accepted practices for the fair and equitable apportionment of special and peculiar benefits in accordance with applicable laws and the procedure for the imposition, levy and collection of non-ad valorem special assessments in conformity with State laws applicable to such assessments.

Development enters its third and “**Platted State**”, as property is platted. Land becomes platted property (the “**Platted Property**”) which single-family units are platted or multifamily land uses receive a building permit and a separate tax parcel identification number is issued for such parcel. At this point, and only at this point, is the use and enjoyment of the property fixed and determinable and it is only at this point that the ultimate special and peculiar benefit can be determined flowing from the components of the CIP peculiar to such platted parcel. At this point, a specific apportionment of the debt assessments will be fixed and determinable from the supplemental assessment report to be prepared once the final pricing details of the bonds are known.

When the development program contains a mix of residential land uses, an accepted method of allocating the costs of public infrastructure improvements to benefiting properties is through the establishment of a system that “equates” the benefit received by each property to the benefit received by a single-family unit to other unit types. To implement this technique for project cost allocation purposes, a base unit type must be set.

Unlike property taxes, which are ad-valorem in nature, a community development district may levy special assessments under Florida Statutes only if the parcels to be assessed receive special benefit from the infrastructure improvement acquired and/or constructed by the District. Special benefits act as a logical connection to property from the improvement system or service facilities being constructed and include, but are not limited to, added use, added enjoyment, increased access and increased property values. These special benefits are peculiar to lands within the District and differ in nature to those general or incidental benefits that landowners outside the District or the general public may enjoy. A District must also apportion or allocate its special assessments so that

the assessments are fairly and reasonably distributed relative to the special benefit conferred. Generally speaking, this means the amount of special assessment levied on a parcel should not exceed the amount of special benefit enjoyed by that parcel. A District typically may develop and adopt an assessment methodology based on front footage, square footage, or any other reasonable allocation method, so long as the assessment meets the benefit requirement, and so long as the assessments are fairly and reasonably allocated.

A. Benefit Analysis

It is anticipated that the 2017 Project will provide special benefit to lands within Esplanade. This infrastructure project is a program of improvements and was designed specifically to facilitate the development of Esplanade into a viable portion of the community, from both a legal and socio-economic standpoint. Therefore, special benefits will accrue to the land uses within Esplanade.

As noted above, the 2017 Project includes not only subdivision (Esplanade specific) infrastructure, but also master infrastructure that will form part of a system of improvements servicing the entire District. Accordingly, the costs associated with the master infrastructure must be prorated so that the proportion of the master costs allocated to the 2017 Project is commensurate with the special benefit derived from the master infrastructure. The master infrastructure costs will be prorated based on the percentage of Equivalent Assessment Unit (EAU) factors assigned to Series 2017 Bonds relative to future development phases. These EAU factors are commonly accepted in the industry for similar product types and will result in an allocation that is fair and reasonable. As reflected in Table IV, and as more fully described in the Engineer's Report prepared by Waldrop Engineer's and dated, August 22, 2017.

Table VI demonstrates the allocation of the Esplanade Allocable Costs for the 2017 Project among the Esplanade development plan. These costs are allocated using an EAU factor applicable for each product type.

There are two amenities planned and related to Artisan Lakes. The first is a temporary amenity facility constructed outside the boundaries of the District and which was originally part of the Developer's sales center. Because it is outside the District's boundaries, no assessments are permitted nor owed in connection with said facility. Additionally, the site plan for Esplanade contemplates the construction of a privately-funded clubhouse/amenity center. As reflected in Table VI , the Esplanade Allocable Costs have not been allocated to the clubhouse; instead, and as contemplated by the Series 2013 Assessment Methodology, and as part of Requisition #3, a contribution of \$64,161.81 was previously made by the Developer to offset any levy of debt assessments on that facility. Even if no contribution had been made, a debt assessment is not

appropriate in connection with the development of Esplanade because the facility will be owned and operated by the Master Homeowner's Association, and is considered a common element for the exclusive benefit of lot owners. Stated differently, any benefit for this facility flows directly to the benefit of all of the Platted Lots in the District. As such, no assessment would be assigned to this amenity.

B. Allocation/Assignment Methodology

The Series 2017 Assessments assignable to Platted Units are provided on Tables VI. This table provides the Series 2017 Assessment amount associated with the Series 2017 Bonds. As noted earlier in this report, to the extent there are Unplatted Acres, the initial assessment on those parcels will be on an equal assessment per acre basis.

7.0 Prepayment of Assessments

The assessments encumbering a Platted Lot may be prepaid in full at anytime, without penalty, together with interest at the rate on the bond series to the interest Payment Date (as defined in the bond trust indenture) that is more than forty-five (45) days next succeeding the date of prepayment, or such other date as set forth in the applicable bond trust indenture. Notwithstanding the preceding provisions, the District does not waive the right to assess penalties and collection costs which would otherwise be permissible if the Platted Lot being prepaid is subject to an assessment delinquency.

8.0 Overview of the Inventory Adjustment Determination

The assessment methodology is based on the development plan that is currently proposed by the Developer. As with all projects of this size and magnitude, as development occurs there may be changes to various parts of the proposed project mix, the number of units, the types of units, etc. The inventory adjustment determination mechanism is intended to ensure that all of the debt assessments areis levied only on developable properties, such that by the end of the development period there will be no remaining debt on any undevelopable property.

First, as property is taken from an undeveloped (raw land) state and readied for development, the property is platted or alternatively specific site plans are developed and processed through the County Property Appraiser, who assigns distinct parcel identification numbers for land that is ready to be built upon. Or in the case of property where a condominium is being developed the land is platted as a large tract of land, and ultimately as the developer files the declaration of condominium, the

County Property Appraiser assign distinct parcel identifications to each condominium unit that will be constructed on the property.

When either of these events occur, the District must allocate the appropriate portion of its' debt to the newly established and distinct parcel identification numbers. The inventory adjustment determination allows for the District to take the debt on these large tracts of land, and assign the correct allocation of debt to these newly created units. This mechanism is done to ensure that the principal assessment for each type of property constructed never exceeds the initially allocated assessment contained in this report.

This is done periodically as determined by the District Manager or their authorized representative, and is intended to insure that the remaining number of units to be constructed can be constructed on the remaining developable land. If at any time, the remaining units are insufficient to absorb the remaining development plan, the applicable landowner will be required to make a density reduction payment, such that the debt remaining after the density reduction payment does not exceed principal assessment for each type of property is exceeded in the initially allocated assessment contained in this report. The specific process for handling inventory adjustments is set forth in more detail in the District's assessment resolution adopting this report, as well as a true-up agreement entered into between the Developer and the District. Further, please note that, in the event that the District's capital improvement plan is not completed, required contributions are not made, or under certain other circumstances, the District may be required to reallocate the special assessments.

Table VII provides the current folio numbers derived from the Manatee County Tax Rolls and matches those folio number's with the anticipated product on each folio numbers.
