The amended form must be filed with the Supervisor of Elections in the County in which the new members reside within thirty (30) days of being seated on this Board of Supervisors.

The fourth order of business is the consideration of the Minutes from the July 13, 2021, Regular Meeting.

I. HISTORY OF FLORIDA'S ETHICS LAWS

Florida has been a leader among the states in establishing ethics standards for public officials and recognizing the right of citizens to protect the public trust against abuse. Our state Constitution was revised in 1968 to require a code of ethics, prescribed by law, for all state employees and non-judicial officers prohibiting conflict between public duty and private interests.

Florida's first successful constitutional initiative resulted in the adoption of the Sunshine Amendment in 1976, providing additional constitutional guarantees concerning ethics in government. In the area of enforcement, the Sunshine Amendment requires that there be an independent commission (the Commission on Ethics) to investigate complaints concerning breaches of public trust by public officers and employees other than judges.

The Code of Ethics for Public Officers and Employees is found in Chapter 112 (Part III) of the Florida Statutes. Foremost among the goals of the Code is to promote the public interest and maintain the respect of the people for their government. The Code is also intended to ensure that public officials conduct themselves independently and impartially, not using their offices for private gain other than compensation provided by law. While seeking to protect the integrity of government, the Code also seeks to avoid the creation of unnecessary barriers to public service.

Criminal penalties, which initially applied to violations of the Code, were eliminated in 1974 in favor of administrative enforcement. The Legislature created the Commission on Ethics that year "to serve as guardian of the standards of conduct" for public officials, state and local. Five of the Commission's nine members are appointed by the Governor, and two each are appointed by the President of the Senate and Speaker of the House of Representatives. No more than five Commission members may be members of the same political party, and none may be lobbyists, or hold any public employment during their two-year terms of office. A chair is selected from among the members to serve a one-year term and may not succeed himself or herself.

In 2018, Florida's Constitutional Revision Commission proposed, and the voters adopted, changes to Article II, Section 8. The earliest of the changes will take effect December 31, 2020, and will prohibit officials from abusing their position to obtain a disproportionate benefit for themselves or their spouse, child, or employer, or for a business with which the official contracts or is an officer, partner, director, sole proprietor, or in which the official owns an interest. Other changes made to the Constitution place restrictions on lobbying by certain officeholders and employees, and put additional limits on lobbying by former public officers and employees. These changes will become effective December 31, 2022.

II. ROLE OF THE COMMISSION ON ETHICS

In addition to its constitutional duties regarding the investigation of complaints, the Commission:

- Renders advisory opinions to public officials;
- Prescribes forms for public disclosure;
- Prepares mailing lists of public officials subject to financial disclosure for use by Supervisors of Elections and the Commission in distributing forms and notifying delinquent filers;
- Makes recommendations to disciplinary officials when appropriate for violations of ethics and disclosure laws, since it does not impose penalties;
- Administers the Executive Branch Lobbyist Registration and Reporting Law;
- Maintains financial disclosure filings of constitutional officers and state officers and employees; and,
- Administers automatic fines for public officers and employees who fail to timely file required annual financial disclosure.

III. THE ETHICS LAWS

The ethics laws generally consist of two types of provisions, those prohibiting certain actions or conduct and those requiring that certain disclosures be made to the public. The following descriptions of these laws have been simplified in an effort to provide notice of their requirements. Therefore, we suggest that you also review the wording of the actual law. Citations to the appropriate laws are in brackets.

The laws summarized below apply generally to all public officers and employees, state and local, including members of advisory bodies. The principal exception to this broad coverage is the exclusion of judges, as they fall within the jurisdiction of the Judicial Qualifications Commission.

Public Service Commission (PSC) members and employees, as well as members of the PSC Nominating Council, are subject to additional ethics standards that are enforced by the Commission on Ethics under Chapter 350, Florida Statutes. Further, members of the governing boards of charter schools are subject to some of the provisions of the Code of Ethics [Sec. 1002.33(26), Fla. Stat.], as are the officers, directors, chief executive officers and some employees of business entities that serve as the chief administrative or executive officer or employee of a political subdivision. [Sec. 112.3136, Fla. Stat.].

A. PROHIBITED ACTIONS OR CONDUCT

1. *Solicitation and Acceptance of Gifts*

Public officers, employees, local government attorneys, and candidates are prohibited from soliciting or accepting anything of value, such as a gift, loan, reward, promise of future employment, favor, or service, that is based on an understanding that their vote, official action, or judgment would be influenced by such gift. [Sec. 112.313(2), Fla. Stat.]

Persons required to file financial disclosure FORM 1 or FORM 6 (see Part III F of this brochure), and state procurement employees, are prohibited from **soliciting** any gift from a political committee, lobbyist who has lobbied the official or his or her agency within the past 12 months, or the partner, firm, employer, or principal of such a lobbyist or from a vendor doing business with the official's agency. [Sec. 112.3148, Fla. Stat.]

Persons required to file FORM 1 or FORM 6, and state procurement employees are prohibited from directly or indirectly **accepting** a gift worth more than \$100 from such a lobbyist, from a partner, firm, employer, or principal of the lobbyist, or from a political committee or vendor doing business with their agency. [Sec.112.3148, Fla. Stat.]

However, notwithstanding Sec. 112.3148, Fla. Stat., no Executive Branch lobbyist or principal shall make, directly or indirectly, and no Executive Branch agency official who files FORM 1 or FORM 6 shall knowingly accept, directly or indirectly, **any expenditure** made for the purpose of lobbying. [Sec. 112.3215, Fla. Stat.] Typically, this would include gifts valued at less than \$100 that formerly were permitted under Section 112.3148, Fla. Stat. Similar rules apply to members and employees of the Legislature. However, these laws are not administered by the Commission on Ethics. [Sec. 11.045, Fla. Stat.]

Also, persons required to file Form 1 or Form 6, and state procurement employees and members of their immediate families, are prohibited from accepting any gift from a political committee. [Sec. 112.31485, Fla. Stat.]

2. *Unauthorized Compensation*

Public officers or employees, local government attorneys, and their spouses and minor children are prohibited from accepting any compensation, payment, or thing of value when they know, or with the exercise of reasonable care should know, that it is given to influence a vote or other official action. [Sec. 112.313(4), Fla. Stat.]

3. Misuse of Public Position

Public officers and employees, and local government attorneys are prohibited from corruptly using or attempting to use their official positions or the resources thereof to obtain a special privilege or benefit for themselves or others. [Sec. 112.313(6), Fla. Stat.]

4. Disclosure or Use of Certain Information

Public officers and employees and local government attorneys are prohibited from disclosing or using information not available to the public and obtained by reason of their public position, for the personal benefit of themselves or others. [Sec. 112.313(8), Fla. Stat.]

5. Solicitation or Acceptance of Honoraria

Persons required to file financial disclosure FORM 1 or FORM 6 (see Part III F of this brochure), and state procurement employees, are prohibited from **soliciting** honoraria related to their public offices or duties. [Sec. 112.3149, Fla. Stat.]

Persons required to file FORM 1 or FORM 6, and state procurement employees, are prohibited from knowingly **accepting** an honorarium from a political committee, lobbyist who has lobbied the person's agency within the past 12 months, or the partner, firm, employer, or principal of such a lobbyist, or from a vendor doing business with the official's agency. However, they may accept the payment of expenses related to an honorarium event from such individuals or entities, provided that the expenses are disclosed. See Part III F of this brochure. [Sec. 112.3149, Fla. Stat.]

Lobbyists and their partners, firms, employers, and principals, as well as political committees and vendors, are prohibited from **giving** an honorarium to persons required to file FORM 1 or FORM 6 and to state procurement employees. Violations of this law may result in fines of up to \$5,000 and prohibitions against lobbying for up to two years. [Sec. 112.3149, Fla. Stat.]

However, notwithstanding Sec. 112.3149, Fla. Stat., no Executive Branch or legislative lobbyist or principal shall make, directly or indirectly, and no Executive Branch agency official who files FORM 1 or FORM 6 shall knowingly accept, directly or indirectly, **any expenditure** made for the purpose of lobbying. [Sec. 112.3215, Fla. Stat.] This may include honorarium event related expenses that formerly were permitted under Sec. 112.3149, Fla. Stat. Similar rules apply to members and employees of the Legislature. However, these laws are not administered by the Commission on Ethics. [Sec. 11.045, Fla. Stat.]

B. PROHIBITED EMPLOYMENT AND BUSINESS RELATIONSHIPS

1. Doing Business With One's Agency

(a) A public employee acting as a purchasing agent, or public officer acting in an official capacity, is prohibited from purchasing, renting, or leasing any realty, goods, or services for his or her agency from a business entity in which the officer or employee or his or her spouse or child owns more than a 5% interest. [Sec. 112.313(3), Fla. Stat.]

(b) A public officer or employee, acting in a private capacity, also is prohibited from renting, leasing, or selling any realty, goods, or services to his or her own agency if the officer or employee is a state officer or employee, or, if he or she is an officer or employee of a political subdivision, to that subdivision or any of its agencies. [Sec. 112.313(3), Fla. Stat.]

2. Conflicting Employment or Contractual Relationship

(a) A public officer or employee is prohibited from holding any employment or contract with any business entity or agency regulated by or doing business with his or her public agency. [Sec. 112.313(7), Fla. Stat.]

(b) A public officer or employee also is prohibited from holding any employment or having a contractual relationship which will pose a frequently recurring conflict between the official's private interests and public duties or which will impede the full and faithful discharge of the official's public duties. [Sec. 112.313(7), Fla. Stat.]

(c) Limited exceptions to this prohibition have been created in the law for legislative bodies, certain special tax districts, drainage districts, and persons whose professions or occupations qualify them to hold their public positions. [Sec. 112.313(7)(a) and (b), Fla. Stat.]

3. Exemptions—Pursuant to Sec. 112.313(12), Fla. Stat., the prohibitions against doing business with one's agency and having conflicting employment may not apply:

(a) When the business is rotated among all qualified suppliers in a city or county.

(b) When the business is awarded by sealed, competitive bidding and neither the official nor his or her spouse or child have attempted to persuade agency personnel to enter the contract. NOTE: Disclosure of the interest of the official, spouse, or child and the nature of the business must be filed prior to or at the time of submission of the bid on Commission FORM 3A with the Commission on Ethics or Supervisor of Elections, depending on whether the official serves at the state or local level.

(c) When the purchase or sale is for legal advertising, utilities service, or for passage on a common carrier.

(d) When an emergency purchase must be made to protect the public health, safety, or welfare.

(e) When the business entity is the only source of supply within the political subdivision and there is full disclosure of the official's interest to the governing body on Commission FORM 4A.

(f) When the aggregate of any such transactions does not exceed \$500 in a calendar year.

(g) When the business transacted is the deposit of agency funds in a bank of which a county, city, or district official is an officer, director, or stockholder, so long as agency records show that the governing body has determined that the member did not favor his or her bank over other qualified banks.

(h) When the prohibitions are waived in the case of ADVISORY BOARD MEMBERS by the appointing person or by a two-thirds vote of the appointing body (after disclosure on Commission FORM 4A).

(i) When the public officer or employee purchases in a private capacity goods or services, at a price and upon terms available to similarly situated members of the general public, from a business entity which is doing business with his or her agency.

(j) When the public officer or employee in a private capacity purchases goods or services from a business entity which is subject to the regulation of his or her agency where the price and terms of the transaction are available to similarly situated members of the general public and the officer or employee makes full disclosure of the relationship to the agency head or governing body prior to the transaction.

4. Additional Exemptions

No elected public officer is in violation of the conflicting employment prohibition when employed by a tax exempt organization contracting with his or her agency so long as the officer is not directly or indirectly compensated as a result of the contract, does not participate in any way in the decision to enter into the contract, abstains from voting on any matter involving the employer, and makes certain disclosures. [Sec. 112.313(15), Fla. Stat.]

5. Legislators Lobbying State Agencies

A member of the Legislature is prohibited from representing another person or entity for compensation during his or her term of office before any state agency other than judicial tribunals. [Art. II, Sec. 8(e), Fla. Const., and Sec. 112.313(9), Fla. Stat.]

6. Employees Holding Office

A public employee is prohibited from being a member of the governing body which serves as his or her employer. [Sec. 112.313(10), Fla. Stat.]

7. Professional and Occupational Licensing Board Members

An officer, director, or administrator of a state, county, or regional professional or occupational organization or association, while holding such position, may not serve as a member of a state examining or licensing board for the profession or occupation. [Sec. 112.313(11), Fla. Stat.]

8. Contractual Services: Prohibited Employment

A state employee of the executive or judicial branch who participates in the decision-making process involving a purchase request, who influences the content of any specification or procurement standard, or who renders advice, investigation, or auditing, regarding his or her agency's contract for services, is prohibited from being employed with a person holding such a contract with his or her agency. [Sec. 112.3185(2), Fla. Stat.]

9. Local Government Attorneys

Local government attorneys, such as the city attorney or county attorney, and their law firms are prohibited from representing private individuals and entities before the unit of local government which they serve. A local government attorney cannot recommend or otherwise refer to his or her firm legal work involving the local government unit unless the attorney's contract authorizes or mandates the use of that firm. [Sec. 112.313(16), Fla. Stat.]

10. Dual Public Employment

Candidates and elected officers are prohibited from accepting public employment if they know or should know it is being offered for the purpose of influence. Further, public employment may not be accepted unless the position was already in existence or was created without the anticipation of the official's interest, was publicly advertised, and the officer had to meet the same qualifications and go through the same hiring process as other applicants. For elected public officers already holding public

employment, no promotion given for the purpose of influence may be accepted, nor may promotions that are inconsistent with those given other similarly situated employees. [Sec. 112.3125, Fla. Stat.]

C. RESTRICTIONS ON APPOINTING, EMPLOYING, AND CONTRACTING WITH RELATIVES

1. Anti-Nepotism Law

A public official is prohibited from seeking for a relative any appointment, employment, promotion, or advancement in the agency in which he or she is serving or over which the official exercises jurisdiction or control. No person may be appointed, employed, promoted, or advanced in or to a position in an agency if such action has been advocated by a related public official who is serving in or exercising jurisdiction or control over the agency; this includes relatives of members of collegial government bodies. NOTE: This prohibition does not apply to school districts (except as provided in Sec. 1012.23, Fla. Stat.), community colleges and state universities, or to appointments of boards, other than those with land-planning or zoning responsibilities, in municipalities of fewer than 35,000 residents. Also, the approval of budgets does not constitute “jurisdiction or control” for the purposes of this prohibition. This provision does not apply to volunteer emergency medical, firefighting, or police service providers. [Sec. 112.3135, Fla. Stat.]

2. Additional Restrictions

A state employee of the executive or judicial branch or the PSC is prohibited from directly or indirectly procuring contractual services for his or her agency from a business entity of which a relative is an officer, partner, director, or proprietor, or in which the employee, or his or her spouse, or children own more than a 5% interest. [Sec. 112.3185(6), Fla. Stat.]

2. Lobbying by Former State Employees

Certain employees of the executive and legislative branches of state government are prohibited from personally representing another person or entity for compensation before the agency with which

they were employed for a period of two years after leaving their positions, unless employed by another agency of state government. [Sec. 112.313(9), Fla. Stat.] These employees include the following:

(a) Executive and legislative branch employees serving in the Senior Management Service and Selected Exempt Service, as well as any person employed by the Department of the Lottery having authority over policy or procurement.

(b) Persons serving in the following position classifications: the Auditor General; the director of the Office of Program Policy Analysis and Government Accountability (OPPAGA); the Sergeant at Arms and Secretary of the Senate; the Sergeant at Arms and Clerk of the House of Representatives; the executive director and deputy executive director of the Commission on Ethics; an executive director, staff director, or deputy staff director of each joint committee, standing committee, or select committee of the Legislature; an executive director, staff director, executive assistant, legislative analyst, or attorney serving in the Office of the President of the Senate, the Office of the Speaker of the House of Representatives, the Senate Majority Party Office, the Senate Minority Party Office, the House Majority Party Office, or the House Minority Party Office; the Chancellor and Vice-Chancellors of the State University System; the general counsel to the Board of Regents; the president, vice presidents, and deans of each state university; any person hired on a contractual basis and having the power normally conferred upon such persons, by whatever title; and any person having the power normally conferred upon the above positions.

This prohibition does not apply to a person who was employed by the Legislature or other agency prior to July 1, 1989; who was a defined employee of the State University System or the Public Service Commission who held such employment on December 31, 1994; or who reached normal retirement age and retired by July 1, 1991. It does apply to OPS employees.

PENALTIES: Persons found in violation of this section are subject to the penalties contained in the Code (see PENALTIES, Part V) as well as a civil penalty in an amount equal to the compensation which the person received for the prohibited conduct. [Sec. 112.313(9)(a)5, Fla. Stat.]

3. Additional Restrictions on Former State Employees

A former executive or judicial branch employee or PSC employee is prohibited from having employment or a contractual relationship, at any time after retirement or termination of employment, with any business entity (other than a public agency) in connection with a contract in which the employee participated personally and substantially by recommendation or decision while a public employee. [Sec. 112.3185(3), Fla. Stat.]

A former executive or judicial branch employee or PSC employee who has retired or terminated employment is prohibited from having any employment or contractual relationship for two years with

any business entity (other than a public agency) in connection with a contract for services which was within his or her responsibility while serving as a state employee. [Sec.112.3185(4), Fla. Stat.]

Unless waived by the agency head, a former executive or judicial branch employee or PSC employee may not be paid more for contractual services provided by him or her to the former agency during the first year after leaving the agency than his or her annual salary before leaving. [Sec. 112.3185(5), Fla. Stat.]

These prohibitions do not apply to PSC employees who were so employed on or before Dec. 31, 1994.

4. Lobbying by Former Local Government Officers and Employees

A person elected to county, municipal, school district, or special district office is prohibited from representing another person or entity for compensation before the government body or agency of which he or she was an officer for two years after leaving office. Appointed officers and employees of counties, municipalities, school districts, and special districts may be subject to a similar restriction by local ordinance or resolution. [Sec. 112.313(13) and (14), Fla. Stat.]

E. VOTING CONFLICTS OF INTEREST

State public officers are prohibited from voting in an official capacity on any measure which they know would inure to their own special private gain or loss. A state public officer who abstains, or who votes on a measure which the officer knows would inure to the special private gain or loss of any principal by whom he or she is retained, of the parent organization or subsidiary or sibling of a corporate principal by which he or she is retained, of a relative, or of a business associate, must make every reasonable effort to file a memorandum of voting conflict with the recording secretary in advance of the vote. If that is not possible, it must be filed within 15 days after the vote occurs. The memorandum must disclose the nature of the officer's interest in the matter.

No county, municipal, or other local public officer shall vote in an official capacity upon any measure which would inure to his or her special private gain or loss, or which the officer knows would inure to the special private gain or loss of any principal by whom he or she is retained, of the parent organization or subsidiary or sibling of a corporate principal by which he or she is retained, of a relative, or of a business associate. The officer must publicly announce the nature of his or her interest before the vote and must file a memorandum of voting conflict on Commission Form 8B with the meeting's recording officer within 15 days after the vote occurs disclosing the nature of his or her interest in the matter. However, members of community redevelopment agencies and district officers elected on a one-acre, one-vote basis are not required to abstain when voting in that capacity.

No appointed state or local officer shall participate in any matter which would inure to the officer's special private gain or loss, the special private gain or loss of any principal by whom he or she is retained, of the parent organization or subsidiary or sibling of a corporate principal by which he or she is retained, of a relative, or of a business associate, without first disclosing the nature of his or her interest in the matter. The memorandum of voting conflict (Commission Form 8A or 8B) must be filed with the meeting's recording officer, be provided to the other members of the agency, and be read publicly at the next meeting.

If the conflict is unknown or not disclosed prior to the meeting, the appointed official must orally disclose the conflict at the meeting when the conflict becomes known. Also, a written memorandum of voting conflict must be filed with the meeting's recording officer within 15 days of the disclosure being made and must be provided to the other members of the agency, with the disclosure being read publicly at the next scheduled meeting. [Sec. 112.3143, Fla. Stat.]

F. DISCLOSURES

Conflicts of interest may occur when public officials are in a position to make decisions that affect their personal financial interests. This is why public officers and employees, as well as candidates who run for public office, are required to publicly disclose their financial interests. The disclosure process serves to remind officials of their obligation to put the public interest above personal considerations. It also helps citizens to monitor the considerations of those who spend their tax dollars and participate in public policy decisions or administration.

All public officials and candidates do not file the same degree of disclosure; nor do they all file at the same time or place. Thus, care must be taken to determine which disclosure forms a particular official or candidate is required to file.

The following forms are described below to set forth the requirements of the various disclosures and the steps for correctly providing the information in a timely manner.

Each person required to file FORM 1 or FORM 6, and each state procurement employee, must file a FORM 9, Quarterly Gift Disclosure, with the Commission on Ethics on the last day of any calendar quarter following the calendar quarter in which he or she received a gift worth more than \$100, other than gifts from relatives, gifts prohibited from being accepted, gifts primarily associated with his or her business or employment, and gifts otherwise required to be disclosed. FORM 9 NEED NOT BE FILED if no such gift was received during the calendar quarter.

Information to be disclosed includes a description of the gift and its value, the name and address of the donor, the date of the gift, and a copy of any receipt for the gift provided by the donor. [Sec. 112.3148, Fla. Stat.]

7. *FORM 10 - Annual Disclosure of Gifts from Government Agencies and Direct-Support Organizations and Honorarium Event Related Expenses*

State government entities, airport authorities, counties, municipalities, school boards, water management districts, and the South Florida Regional Transportation Authority, may give a gift worth more than \$100 to a person required to file FORM 1 or FORM 6, and to state procurement employees, if a public purpose can be shown for the gift. Also, a direct-support organization for a governmental entity

may give such a gift to a person who is an officer or employee of that entity. These gifts are to be reported on FORM 10, to be filed by July 1.

The governmental entity or direct-support organization giving the gift must provide the officer or employee with a statement about the gift no later than March 1 of the following year. The officer or employee then must disclose this information by filing a statement by July 1 with his or her annual financial disclosure that describes the gift and lists the donor, the date of the gift, and the value of the total gifts provided during the calendar year. State procurement employees file their statements with the Commission on Ethics. [Sec. 112.3148, Fla. Stat.]

In addition, a person required to file FORM 1 or FORM 6, or a state procurement employee, who receives expenses or payment of expenses related to an honorarium event from someone who is prohibited from giving him or her an honorarium, must disclose annually the name, address, and affiliation of the donor, the amount of the expenses, the date of the event, a description of the expenses paid or provided, and the total value of the expenses on FORM 10. Stat., no executive branch or legislative lobbyist or principal shall make, directly or indirectly, and no executive branch agency official or employee who files FORM 1 or FORM 6 shall knowingly accept, directly or indirectly, **any expenditure** made for the purpose of lobbying. This may include gifts or honorarium event related expenses that formerly were permitted under Sections 112.3148 and 112.3149. [Sec. 112.3215, Fla. Stat.] Similar prohibitions apply to legislative officials and employees. However, these laws are not administered by the Commission on Ethics. [Sec. 11.045, Fla. Stat.] In addition, gifts, which include anything not primarily related to political activities authorized under ch. 106, are prohibited from political committees. [Sec. 112.31485 Fla. Stat.]

If such person or entity makes a gift worth between \$25 and \$100 to a reporting individual or state procurement employee (that is not accepted in behalf of a governmental entity or charitable

organization), the gift should be reported on FORM 30. The donor also must notify the recipient at the time the gift is made that it will be reported.

The FORM 30 should be filed by the last day of the calendar quarter following the calendar quarter in which the gift was made. If the gift was made to an individual in the legislative branch, FORM 30 should be filed with the Lobbyist Registrar. However, notwithstanding Section 112.3148, Fla. Stat., no executive branch lobbyist or principal shall make, directly or indirectly, and no executive branch agency official or employee who files FORM 1 or FORM 6 shall knowingly accept, directly or indirectly, **any expenditure** made for the purpose of lobbying. This may include gifts that formerly were permitted under Section 112.3148. [Sec. 112.3215, Fla. Stat.] Similar prohibitions apply to legislative officials and employees. However, these laws are not administered by the Commission on Ethics. [Sec. 11.045, Fla. Stat.] In addition, gifts from political committees are prohibited. [Sec. 112.31485, Fla. Stat.]

VI. ADVISORY OPINIONS

Conflicts of interest may be avoided by greater awareness of the ethics laws on the part of public officials and employees through advisory assistance from the Commission on Ethics.

A. Who Can Request an Opinion

Any public officer, candidate for public office, or public employee in Florida who is in doubt about the applicability of the standards of conduct or disclosure laws to himself or herself, or anyone who has the power to hire or terminate another public employee, may seek an advisory opinion from the Commission about himself or herself or that employee.

B. How to Request an Opinion

Opinions may be requested by letter presenting a question based on a real situation and including a detailed description of the situation. Opinions are issued by the Commission and are binding on the conduct of the person who is the subject of the opinion, unless material facts were omitted or misstated in the request for the opinion. Published opinions will not bear the name of the persons involved unless they consent to the use of their names; however, the request and all information pertaining to it is a

public record, made available to the Commission and to members of the public in advance of the Commission's consideration of the question.

C. How to Obtain Published Opinions

All of the Commission's opinions are available for viewing or download at its website:
www.ethics.state.fl.us.

VII. COMPLAINTS

A. Citizen Involvement

The Commission on Ethics cannot conduct investigations of alleged violations of the Sunshine Amendment or the Code of Ethics unless a person files a sworn complaint with the Commission alleging such violation has occurred, or a referral is received, as discussed below.

If you have knowledge that a person in government has violated the standards of conduct or disclosure laws described above, you may report these violations to the Commission by filing a sworn complaint on the form prescribed by the Commission and available for download at www.ethics.state.fl.us. The Commission is unable to take action based on learning of such misdeeds through newspaper reports, telephone calls, or letters.

You can obtain a complaint form (FORM 50), by contacting the Commission office at the address or phone number shown on the inside front cover of this booklet, or you can download it from the Commission's website:
www.ethics.state.fl.us.

B. Referrals

The Commission may accept referrals from: the Governor, the Florida Department of Law Enforcement, a State Attorney, or a U.S. Attorney. A vote of six of the Commission's nine members is required to proceed on such a referral.

C. Confidentiality

The complaint or referral, as well as all proceedings and records relating thereto, is confidential until the accused requests that such records be made public or until the matter reaches a stage in the Commission's proceedings where it becomes public. This means that unless the Commission receives a written waiver of confidentiality from the accused, the Commission is not free to release any

documents or to comment on a complaint or referral to members of the public or press, so long as the complaint or referral remains in a confidential stage.

A COMPLAINT OR REFERRAL MAY NOT BE FILED WITH RESPECT TO A CANDIDATE ON THE DAY OF THE ELECTION, OR WITHIN THE 30 CALENDAR DAYS PRECEDING THE ELECTION DATE, UNLESS IT IS BASED ON PERSONAL INFORMATION OR INFORMATION OTHER THAN HEARSAY.

D. How the Complaint Process Works

Complaints which allege a matter within the Commission's jurisdiction are assigned a tracking number and Commission staff forwards a copy of the original sworn complaint to the accused within five working days of its receipt. Any subsequent sworn amendments to the complaint also are transmitted within five working days of their receipt.

Once a complaint is filed, it goes through three procedural stages under the Commission's rules. The first stage is a determination of whether the allegations of the complaint are legally sufficient: that is, whether they indicate a possible violation of any law over which the Commission has jurisdiction. If the complaint is found not to be legally sufficient, the Commission will order that the complaint be dismissed without investigation, and all records relating to the complaint will become public at that time.

In cases of very minor financial disclosure violations, the official will be allowed an opportunity to correct or amend his or her disclosure form. Otherwise, if the complaint is found to be legally sufficient, a preliminary investigation will be undertaken by the investigative staff of the Commission. The second stage of the Commission's proceedings involves this preliminary investigation and a decision by the Commission as to whether there is probable cause to believe that there has been a violation of any of the ethics laws. If the Commission finds no probable cause to believe there has been a violation of the ethics laws, the complaint will be dismissed and will become a matter of public record. If the Commission finds probable cause to believe there has been a violation of the ethics laws, the complaint becomes public and usually enters the third stage of proceedings. This stage requires the Commission to decide whether the law was actually violated and, if so, whether a penalty should be recommended. At this stage, the accused has the right to request a public hearing (trial) at which evidence is presented, or the Commission may order that such a hearing be held. Public hearings usually are held in or near the area where the alleged violation occurred.

When the Commission concludes that a violation has been committed, it issues a public report of its findings and may recommend one or more penalties to the appropriate disciplinary body or official.

When the Commission determines that a person has filed a complaint with knowledge that the complaint contains one or more false allegations or with reckless disregard for whether the complaint contains false allegations, the complainant will be liable for costs plus reasonable attorney's fees

incurred by the person complained against. The Department of Legal Affairs may bring a civil action to recover such fees and costs, if they are not paid voluntarily within 30 days.

E. Dismissal of Complaints At Any Stage of Disposition

The Commission may, at its discretion, dismiss any complaint at any stage of disposition should it determine that the public interest would not be served by proceeding further, in which case the Commission will issue a public report stating with particularity its reasons for the dismissal. [Sec. 112.324(12), Fla. Stat.]

F. Statute of Limitations

All sworn complaints alleging a violation of the Sunshine Amendment or the Code of Ethics must be filed with the Commission within five years of the alleged violation or other breach of the public trust. Time starts to run on the day AFTER the violation or breach of public trust is committed. The statute of limitations is tolled on the day a sworn complaint is filed with the Commission. If a complaint is filed and the statute of limitations has run, the complaint will be dismissed. [Sec. 112.3231, Fla. Stat.]

VIII. EXECUTIVE BRANCH LOBBYING

Any person who, for compensation and on behalf of another, lobbies an agency of the executive branch of state government with respect to a decision in the area of policy or procurement may be required to register as an executive branch lobbyist. Registration is required before lobbying an agency and is renewable annually. In addition, each lobbying firm must file a compensation report with the Commission for each calendar quarter during any portion of which one or more of the firm's lobbyists were registered to represent a principal. As noted above, no executive branch lobbyist or principal can make, directly or indirectly, and no executive branch agency official or employee who files FORM 1 or FORM 6 can knowingly accept, directly or indirectly, **any expenditure** made for the purpose of lobbying. [Sec. 112.3215, Fla. Stat.]

Paying an executive branch lobbyist a contingency fee based upon the outcome of any specific executive branch action, and receiving such a fee, is prohibited. A violation of this prohibition is a first degree misdemeanor, and the amount received is subject to forfeiture. This does not prohibit sales people from receiving a commission. [Sec. 112.3217, Fla. Stat.]

Executive branch departments, state universities, community colleges, and water management districts are prohibited from using public funds to retain an executive branch (or legislative branch) lobbyist, although these agencies may use full-time employees as lobbyists. [Sec. 11.062, Fla. Stat.]

Online registration and filing is available at www.floridalobbyist.gov. Additional information about the executive branch lobbyist registration system may be obtained by contacting the Lobbyist Registrar at the following address:

IX. WHISTLE-BLOWER'S ACT

In 1986, the Legislature enacted a "Whistle-blower's Act" to protect employees of agencies and government contractors from adverse personnel actions in retaliation for disclosing information in a sworn complaint alleging certain types of improper activities. Since then, the Legislature has revised this law to afford greater protection to these employees.

While this language is contained within the Code of Ethics, the Commission has no jurisdiction or authority to proceed against persons who violate this Act. Therefore, a person who has disclosed information alleging improper conduct governed by this law and who may suffer adverse consequences as a result should contact one or more of the following: the Office of the Chief Inspector General in the Executive Office of the Governor; the Department of Legal Affairs; the Florida Commission on Human Relations; or a private attorney. [Sec. 112.3187 - 112.31895, Fla. Stat.]

X. ADDITIONAL INFORMATION

As mentioned above, we suggest that you review the language used in each law for a more detailed understanding of Florida's ethics laws. The "Sunshine Amendment" is Article II, Section 8, of the Florida Constitution. The Code of Ethics for Public Officers and Employees is contained in Part III of Chapter 112, Florida Statutes.

Additional information about the Commission's functions and interpretations of these laws may be found in Chapter 34 of the Florida Administrative Code, where the Commission's rules are published, and in The Florida Administrative Law Reports, which until 2005 published many of the Commission's final orders. The Commission's rules, orders, and opinions also are available at www.ethics.state.fl.us.

If you are a public officer or employee concerned about your obligations under these laws, the staff of the Commission will be happy to respond to oral and written inquiries by providing information about the law, the Commission's interpretations of the law, and the Commission's procedures.

XI. TRAINING

Constitutional officers, elected municipal officers, and commissioners of community redevelopment agencies (CRAs) are required to receive a total of four hours training, per calendar year, in the area of ethics, public records, and open meetings. The Commission on Ethics does not track compliance or certify providers.

Visit the training page on the Commission's website for up-to-date rules, opinions, audio/video training, and opportunities for live training conducted by Commission staff. A comprehensive online training course addressing Florida's Code of Ethics, as well as Sunshine Law, and Public Records Act is available via a link on the Commission's homepage.

FILING INSTRUCTIONS:

If you were mailed the form by the Commission on Ethics or a County Supervisor of Elections for your annual disclosure filing, return the form to that location. To determine what category your position falls under, see page 3 of instructions.

Local officers/employees file with the Supervisor of Elections of the county in which they permanently reside. (If you do not permanently reside in Florida, file with the Supervisor of the county where your agency has its headquarters.) Form 1 filers who file with the Supervisor of Elections may file by mail or email. Contact your Supervisor of Elections for the mailing address or email address to use. Do not email your form to the Commission on Ethics, it will be returned.

State officers or specified state employees who file with the Commission on Ethics may file by mail or email. To file by mail, send the completed form to P.O. Drawer 15709, Tallahassee, FL 32317-5709; physical address: 325 John Knox Rd, Bldg E, Ste 200, Tallahassee, FL 32303. To file with the Commission by email, scan your completed form and any attachments as a pdf (do not use any other format), send it to CEForm1@leg.state.fl.us and retain a copy for your records. Do not file by both mail and email. Choose only one filing method. Form 6s will not be accepted via email.

WHEN TO FILE: Initially, each local officer/employee, state officer, and specified state employee must file **within 30 days** of the date of his or her appointment or of the beginning of employment. Appointees who must be confirmed by the Senate must file prior to confirmation, even if that is less than 30 days from the date of their appointment.

Candidates must file at the same time they file their qualifying papers.

Thereafter, file by July 1 following each calendar year in which they hold their positions.

Finally, file a final disclosure form (Form 1F) within 60 days of leaving office or employment. Filing a CE Form 1F (Final Statement of Financial Interests) does not relieve the filer of filing a CE Form 1 if the filer was in his or her position on December 31, 2020.

MANNER OF CALCULATING REPORTABLE INTEREST

Filers have the option of reporting based on either thresholds that are comparative (usually, based on percentage values) or thresholds that are based on absolute dollar values. The instructions on the following pages specifically describe the different thresholds. Check the box that reflects the choice you have made. You must use the type of threshold you have chosen for each part of the form. In other words, if you choose to report based on absolute dollar value thresholds, you cannot use a percentage threshold on any part of the form.

IF YOU HAVE CHOSEN DOLLAR VALUE THRESHOLDS THE FOLLOWING INSTRUCTIONS APPLY

PART A — PRIMARY SOURCES OF INCOME

[Required by s. 112.3145(3)(b)1, F.S.]

Part A is intended to require the disclosure of your principal sources of income during the disclosure period. You do not have to disclose any public salary or public position(s). The income of your spouse need not be disclosed; however, if there is joint income to you and your spouse from property you own jointly (such as interest or dividends from a bank account or stocks), you should disclose the source of that income if it exceeded the threshold.

Please list in this part of the form the name, address, and principal business activity of each source of your income which exceeded \$2,500 of gross income received by you in your own name or by any other person for your use or benefit.

"Gross income" means the same as it does for income tax purposes, even if the income is not actually taxable, such as interest on tax-free bonds. Examples include: compensation for services, income from business, gains from property dealings, interest, rents, dividends, pensions, IRA distributions, social security, distributive share of partnership gross income, and alimony, but not child support.

Examples:

— If you were employed by a company that manufactures computers and received more than \$2,500, list the name of the company, its address, and its principal business activity (computer manufacturing).

— If you were a partner in a law firm and your distributive share of partnership gross income exceeded \$2,500, list the name of the firm, its address, and its principal business activity (practice of law).

— If you were the sole proprietor of a retail gift business and your gross income from the business exceeded \$2,500, list the name of the business, its address, and its principal business activity (retail gift sales).

— If you received income from investments in stocks and bonds, list each individual company from which you derived more than \$2,500. Do not aggregate all of your investment income.

— If more than \$2,500 of your gross income was gain from the sale of property (not just the selling price), list as a source of income the purchaser's name, address and principal business activity. If the purchaser's identity is unknown, such as where securities listed on an exchange are sold through a brokerage firm, the source of income should be listed as "sale of (name of company) stock," for example.

— If more than \$2,500 of your gross income was in the form of interest from one particular financial institution (aggregating interest from all CD's, accounts, etc., at that institution), list the name of the institution, its address, and its principal business activity.

PART B — SECONDARY SOURCES OF INCOME

[Required by s. 112.3145(3)(b)2, F.S.]

This part is intended to require the disclosure of major customers, clients, and other sources of income to businesses in which you own an interest. It is not for reporting income from second jobs. That kind of income should be reported in Part A "Primary Sources of Income," if it meets the reporting threshold. You will not have anything to report unless, during the disclosure period:

(1) You owned (either directly or indirectly in the form of an equitable or beneficial interest) more than 5% of the total assets or capital

stock of a business entity (a corporation, partnership, LLC, limited partnership, proprietorship, joint venture, trust, firm, etc., doing business in Florida); **and,**

(2) You received more than \$5,000 of your gross income during the disclosure period from that business entity.

If your interests and gross income exceeded these thresholds, then for that business entity you must list every source of income to the business entity which exceeded 10% of the business entity's gross income (computed on the basis of the business entity's most recently completed fiscal year), the source's address, and the source's principal business activity.

Examples:

— You are the sole proprietor of a dry cleaning business, from which you received more than \$5,000. If only one customer, a uniform rental company, provided more than 10% of your dry cleaning business, you must list the name of the uniform rental company, its address, and its principal business activity (uniform rentals).

— You are a 20% partner in a partnership that owns a shopping mall and your partnership income exceeded the above thresholds. List each tenant of the mall that provided more than 10% of the partnership's gross income and the tenant's address and principal business activity.

PART C — REAL PROPERTY

[Required by s. 112.3145(3)(b)3, F.S.]

In this part, list the location or description of all real property in Florida in which you owned directly or indirectly at any time during the disclosure period in excess of 5% of the property's value. You are not required to list your residences. You should list any vacation homes if you derive income from them.

Indirect ownership includes situations where you are a beneficiary of a trust that owns the property, as well as situations where you own more than 5% of a partnership or corporation that owns the property. The value of the property may be determined by the most recently assessed value for tax purposes, in the absence of a more accurate fair market value.

The location or description of the property should be sufficient to enable anyone who looks at the form to identify the property. A street address should be used, if one exists.

PART D — INTANGIBLE PERSONAL PROPERTY

[Required by s. 112.3145(3)(b)3, F.S.]

Describe any intangible personal property that, at any time during the disclosure period, was worth more than \$10,000 and state the business entity to which the property related. Intangible personal property includes things such as cash on hand, stocks, bonds, certificates of deposit, vehicle leases, interests in businesses, beneficial interests in trusts, money owed you (including, but not limited to, loans made as a candidate to your own campaign), Deferred Retirement Option Program (DROP) accounts, the Florida Prepaid College Plan, and bank accounts in which you have an ownership interest. Intangible personal property also includes investment products held in IRAs, brokerage accounts, and the Florida College Investment Plan. Note that the product contained in a brokerage account, IRA, or the Florida College Investment Plan is your asset—not the account or plan itself. Things like automobiles and houses you own, jewelry, and paintings are not intangible property. Intangibles relating to the same business entity may be aggregated; for example, CDs and savings accounts with the same bank. Property owned as tenants by the entirety or as joint tenants with right of survivorship, including bank accounts owned in such a manner, should be valued at 100%. The value of a leased vehicle is the vehicle's present value minus the lease residual (a number found on the lease document).

PART E — LIABILITIES

[Required by s. 112.3145(3)(b)4, F.S.]

List the name and address of each creditor to whom you owed more than \$10,000 at any time during the disclosure period. The amount of the liability of a vehicle lease is the sum of any past-due payments and all unpaid prospective lease payments. You are not required to list the amount of any debt. You do not have to disclose credit card and retail installment accounts, taxes owed (unless reduced to a judgment), indebtedness on a life insurance policy owed to the company of issuance, or contingent liabilities. A "contingent liability" is one that will become an actual liability only when one or more future events occur or fail to occur, such as where you are liable only as a guarantor, surety, or endorser on a promissory note. If you are a "co-maker" and are jointly liable or jointly and severally liable, then it is not a contingent liability.

PART F — INTERESTS IN SPECIFIED BUSINESSES

[Required by s. 112.3145(6), F.S.]

The types of businesses covered in this disclosure include: state and federally chartered banks; state and federal savings and loan associations; cemetery companies; insurance companies; mortgage companies; credit unions; small loan companies; alcoholic beverage licensees; pari-mutuel wagering companies, utility companies, entities controlled by the Public Service Commission; and entities granted a franchise to operate by either a city or a county government.

Disclose in this part the fact that you owned during the disclosure

period an interest in, or held any of certain positions with the types of businesses listed above. You must make this disclosure if you own or owned (either directly or indirectly in the form of an equitable or beneficial interest) at any time during the disclosure period more than 5% of the total assets or capital stock of one of the types of business entities listed above. You also must complete this part of the form for each of these types of businesses for which you are, or were at any time during the disclosure period, an officer, director, partner, proprietor, or agent (other than a resident agent solely for service of process).

If you have or held such a position or ownership interest in one of these types of businesses, list the name of the business, its address and principal business activity, and the position held with the business (if any). If you own(ed) more than a 5% interest in the business, indicate that fact and describe the nature of your interest.

PART G — TRAINING CERTIFICATION

[Required by s. 112.3142, F.S.]

If you are a Constitutional or elected municipal officer, appointed school superintendent, or a commissioner of a community redevelopment agency created under Part III, Chapter 163 whose service began before March 31 of the year for which you are filing, you are required to complete four hours of ethics training which addresses Article II, Section 8 of the Florida Constitution, the Code of Ethics for Public Officers and Employees, and the public records and open meetings laws of the state. You are required to certify on this form that you have taken such training.

IF YOU HAVE CHOSEN COMPARATIVE (PERCENTAGE) THRESHOLDS THE FOLLOWING INSTRUCTIONS APPLY

PART A — PRIMARY SOURCES OF INCOME

[Required by s. 112.3145(3)(a)1, F.S.]

Part A is intended to require the disclosure of your principal sources of income during the disclosure period. You do not have to disclose any public salary or public position(s), but income from these public sources should be included when calculating your gross income for the disclosure period. The income of your spouse need not be disclosed; however, if there is joint income to you and your spouse from property you own jointly (such as interest or dividends from a bank account or stocks), you should include all of that income when calculating your gross income and disclose the source of that income if it exceeded the threshold.

Please list in this part of the form the name, address, and principal business activity of each source of your income which exceeded 5% of the gross income received by you in your own name or by any other person for your benefit or use during the disclosure period.

"Gross income" means the same as it does for income tax purposes, even if the income is not actually taxable, such as interest on tax-free bonds. Examples include: compensation for services, income from business, gains from property dealings, interest, rents, dividends, pensions, IRA distributions, social security, distributive share of partnership gross income, and alimony, but not child support.

Examples:

— If you were employed by a company that manufactures computers and received more than 5% of your gross income from the company, list the name of the company, its address, and its principal business activity (computer manufacturing).

— If you were a partner in a law firm and your distributive share of partnership gross income exceeded 5% of your gross income, then list the name of the firm, its address, and its principal business activity (practice of law).

— If you were the sole proprietor of a retail gift business and your gross income from the business exceeded 5% of your total gross income, list the name of the business, its address, and its principal business activity (retail gift sales).

— If you received income from investments in stocks and bonds, list each individual company from which you derived

more than 5% of your gross income. Do not aggregate all of your investment income.

— If more than 5% of your gross income was gain from the sale of property (not just the selling price), list as a source of income the purchaser's name, address, and principal business activity. If the purchaser's identity is unknown, such as where securities listed on an exchange are sold through a brokerage firm, the source of income should be listed as "sale of (name of company) stock," for example.

— If more than 5% of your gross income was in the form of interest from one particular financial institution (aggregating interest from all CD's, accounts, etc., at that institution), list the name of the institution, its address, and its principal business activity.

PART B — SECONDARY SOURCES OF INCOME

[Required by s. 112.3145(3)(a)2, F.S.]

This part is intended to require the disclosure of major customers, clients, and other sources of income to businesses in which you own an interest. It is not for reporting income from second jobs. That kind of income should be reported in Part A, "Primary Sources of Income," if it meets the reporting threshold. You will **not** have anything to report **unless** during the disclosure period:

(1) You owned (either directly or indirectly in the form of an equitable or beneficial interest) more than 5% of the total assets or capital stock of a business entity (a corporation, partnership, LLC, limited partnership, proprietorship, joint venture, trust, firm, etc., doing business in Florida); **and,**

(2) You received more than 10% of your gross income from that business entity; **and,**

(3) You received more than \$1,500 in gross income from that business entity.

If your interests and gross income exceeded these thresholds, then for that business entity you must list every source of income to the business entity which exceeded 10% of the business entity's gross income (computed on the basis of the business entity's most recently completed fiscal year), the source's address, and the source's principal business activity.

Examples:

— You are the sole proprietor of a dry cleaning business, from which you received more than 10% of your gross income—an amount that was more than \$1,500. If only one customer, a uniform rental company, provided more than 10% of your dry cleaning business, you must list the name of the uniform rental company, its address, and its principal business activity (uniform rentals).

— You are a 20% partner in a partnership that owns a shopping mall and your partnership income exceeded the thresholds listed above. You should list each tenant of the mall that provided more than 10% of the partnership's gross income, and the tenant's address and principal business activity.

PART C — REAL PROPERTY

[Required by s. 112.3145(3)(a)3, F.S.]

In this part, list the location or description of all real property in Florida in which you owned directly or indirectly at any time during the disclosure period in excess of 5% of the property's value. You are not required to list your residences. You should list any vacation homes, if you derive income from them.

Indirect ownership includes situations where you are a beneficiary of a trust that owns the property, as well as situations where you own more than 5% of a partnership or corporation that owns the property. The value of the property may be determined by the most recently assessed value for tax purposes, in the absence of a more accurate fair market value.

The location or description of the property should be sufficient to enable anyone who looks at the form to identify the property. A street address should be used, if one exists.

PART D — INTANGIBLE PERSONAL PROPERTY

[Required by s. 112.3145(3)(a)3, F.S.]

Describe any intangible personal property that, at any time during the disclosure period, was worth more than 10% of your total assets, and state the business entity to which the property related. Intangible personal property includes things such as cash on hand, stocks, bonds, certificates of deposit, vehicle leases, interests in businesses, beneficial interests in trusts, money owed you (including, but not limited to, loans made as a candidate to your own campaign), Deferred Retirement Option Program (DROP) accounts, the Florida Prepaid College Plan, and bank accounts in which you have an ownership interest. Intangible personal property also includes investment products held in IRAs, brokerage accounts, and the Florida College Investment Plan. Note that the product contained in a brokerage account, IRA, or the Florida College Investment Plan is your asset—not the account or plan itself. Things like automobiles and houses you own, jewelry, and paintings are not intangible property. Intangibles relating to the same business entity may be aggregated; for example, CD's and savings accounts with the same bank.

Calculations: To determine whether the intangible property exceeds 10% of your total assets, total the fair market value of all of your assets (including real property, intangible property, and tangible personal property such as jewelry, furniture, etc.). When making this calculation, do not subtract any liabilities (debts) that may relate to the property. Multiply the total figure by 10% to arrive at the disclosure threshold. List only the intangibles that exceed this threshold amount. The value of a leased vehicle is the vehicle's present value minus the lease residual (a number which can be found on the lease document). Property that is only jointly owned property should be valued according to the percentage of your joint ownership. Property owned as tenants by the entirety or as joint tenants with right of survivorship, including bank accounts owned in such a manner, should be valued at 100%. None of your calculations or the value of the property have to be disclosed on the form.

Example: You own 50% of the stock of a small corporation that is worth \$100,000, the estimated fair market value of your home and other property (bank accounts, automobile, furniture, etc.) is \$200,000. As your total assets are worth \$250,000, you must disclose intangibles worth over \$25,000. Since the value of the stock exceeds this threshold, you should list "stock" and the name of the corporation. If your accounts with a particular bank exceed \$25,000, you should list "bank accounts" and bank's name.

PART E — LIABILITIES

[Required by s. 112.3145(3)(b)4, F.S.]

List the name and address of each creditor to whom you owed any amount that, at any time during the disclosure period, exceeded your net worth. You are not required to list the amount of any debt or your net worth. You do not have to disclose: credit card and retail installment accounts, taxes owed (unless reduced to a judgment), indebtedness on a life insurance policy owed to the company of issuance, or contingent liabilities. A "contingent liability" is one that will become an actual liability only when one or more future events occur or fail to occur, such as where you are liable only as a guarantor, surety, or endorser on a promissory note. If you are a "co-maker" and are jointly liable or jointly and severally liable, it is not a contingent liability.

Calculations: To determine whether the debt exceeds your net worth, total all of your liabilities (including promissory notes, mortgages, credit card debts, judgments against you, etc.). The amount of the liability of a vehicle lease is the sum of any past-due payments and all unpaid prospective lease payments. Subtract the sum total of your liabilities from the value of all your assets as calculated above for Part D. This is your "net worth." List each creditor to whom your debt exceeded this amount unless it is one of the types of indebtedness listed in the paragraph above (credit card and retail installment accounts, etc.). Joint liabilities with others for which you are "jointly and severally liable," meaning that you may be liable for either your part or the whole of the obligation, should be included in your calculations at 100% of the amount owed.

Example: You owe \$15,000 to a bank for student loans, \$5,000 for credit card debts, and \$60,000 (with spouse) to a savings and loan for a home mortgage. Your home (owned by you and your spouse) is worth \$80,000 and your other property is worth \$20,000. Since your net worth is \$20,000 (\$100,000 minus \$80,000), you must report only the name and address of the savings and loan.

PART F — INTERESTS IN SPECIFIED BUSINESSES

[Required by s. 112.3145, F.S.]

The types of businesses covered in this disclosure include: state and federally chartered banks; state and federal savings and loan associations; cemetery companies; insurance companies; mortgage companies; credit unions; small loan companies; alcoholic beverage licensees; pari-mutuel wagering companies, utility companies, entities controlled by the Public Service Commission; and entities granted a franchise to operate by either a city or a county government.

Disclose in this part the fact that you owned during the disclosure period an interest in, or held any of certain positions with, the types of businesses listed above. You are required to make this disclosure if you own or owned (either directly or indirectly in the form of an equitable or beneficial interest) at any time during the disclosure period more than 5% of the total assets or capital stock of one of the types of business entities listed above. You also must complete this part of the form for each of these types of businesses for which you are, or were at any time during the disclosure period, an officer, director, partner, proprietor, or agent (other than a resident agent solely for service of process).

If you have or held such a position or ownership interest in one of these types of businesses, list the name of the business, its address and principal business activity, and the position held with the business (if any). If you own(ed) more than a 5% interest in the business, indicate that fact and describe the nature of your interest.

PART G — TRAINING CERTIFICATION

[Required by s. 112.3142, F.S.]

If you are a Constitutional or elected municipal officer, appointed school superintendent, or a commissioner of a community redevelopment agency created under Part III, Chapter 163 whose service began before March 31 of the year for which you are filing, you are required to complete four hours of ethics training which addresses Article II, Section 8 of the Florida Constitution, the Code of Ethics for Public Officers and Employees, and the public records and open meetings laws of the state. You are required to certify on this form that you have taken such training.

REPORT OF INDEPENDENT AUDITORS

To the Board of Supervisors
Buckeye Park Community Development District
Manatee County, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of Buckeye Park Community Development District as of and for the year ended September 30, 2021, and the related notes to financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Accounting Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Fort Pierce / Stuart

To the Board of Supervisors
Buckeye Park Community Development District

Basis for Disclaimer of Opinion on the Discretely Presented Component Unit

The District did not provide support documentation for the activity outside of the trust accounts related to the discretely presented component unit, therefore, we were unable to verify the total financial activity for the component unit.

Disclaimer of Opinion

In our opinion, because of the significance of the matter discussed in the "Basis for Disclaimer of Opinion on the Discretely Presented Component Unit", we do not express an opinion on the changes in financial position of the Discretely Presented Component Unit for the year ended September 30, 2021.

Qualified Opinion

In our opinion, except for the effects of the matter described in the "Basis for Disclaimer Opinion on the Discretely Presented Component Unit" paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of the aggregate remaining fund information of the District as of September 30, 2021, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Unmodified Opinions

In our opinion, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District, as of September 30, 2021, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

To the Board of Supervisors
Buckeye Park Community Development District

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management Discussion and Analysis be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated November 30, 2021 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations and contracts. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Buckeye Park Community Development District's internal control over financial reporting and compliance.

**Buckeye Park Community Development District
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2021**

Management's discussion and analysis of Buckeye Park Community Development District (the "District") financial performance provides an objective and easily readable analysis of the District's financial activities. The analysis provides summary financial information for the District and should be read in conjunction with the District's financial statements.

OVERVIEW OF THE FINANCIAL STATEMENTS

The District's basic financial statements comprise three components: 1) *Government-wide financial statements*, 2) *Fund financial statements*, and 3) *Notes to financial statements*. The *Government-wide financial statements* present an overall picture of the District's financial position and results of operations. The *Fund financial statements* present financial information for the District's major funds. The *Notes to financial statements* provide additional information concerning the District's finances.

The *Government-wide financial statements* are the **statement of net position** and the **statement of activities**. These statements use accounting methods similar to those used by private-sector companies. Emphasis is placed on the net position of governmental activities and the change in net position. Governmental activities are primarily supported by special assessments.

The **statement of net position** presents information on all assets and liabilities of the District, with the difference between assets and liabilities reported as net position. Net position is reported in three categories; 1) net investment in capital assets, 2) restricted, and 3) unrestricted. Assets, liabilities, and net position are reported for all Governmental activities.

The **statement of activities** presents information on all revenues and expenses of the District and the change in net position. Expenses are reported by major function and program revenues relating to those functions are reported, providing the net cost of all functions provided by the District. To assist in understanding the District's operations, expenses have been reported as governmental activities. Governmental activities financed by the District include general government, public safety, physical environment and debt service.

Fund financial statements present financial information for governmental funds. These statements provide financial information for the major funds of the District. Governmental fund financial statements provide information on the current assets and liabilities of the funds, changes in current financial resources (revenues and expenditures), and current available resources.

**Buckeye Park Community Development District
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2021**

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Fund financial statements include a **balance sheet** and a **statement of revenues, expenditures and changes in fund balances** for all governmental funds. A **statement of revenues, expenditures, and changes in fund balances – budget and actual** is provided for the District's General Fund. *Fund financial statements* provide more detailed information about the District's activities. Individual funds are established by the District to track revenues that are restricted to certain uses or to comply with legal requirements.

The *government-wide financial statements* and the *fund financial statements* provide different pictures of the District. The *government-wide financial statements* provide an overall picture of the District's financial standing. These statements are comparable to private-sector companies and give a good understanding of the District's overall financial health and how the District paid for the various activities, or functions, provided by the District. All assets of the District, including land and infrastructure are reported in the **statement of net position**. All liabilities, including principal outstanding on bonds are included. The **statement of activities** includes depreciation on all long-lived assets of the District, but transactions between the different functions of the District have been eliminated in order to avoid "doubling up" the revenues and expenses. The *fund financial statements* provide a picture of the major funds of the District. In the case of governmental activities, outlays for long lived assets are reported as expenditures and long-term liabilities, such as general obligation bonds, are not included in the fund financial statements. To provide a link from the *fund financial statements* to the *government-wide financial statements*, a reconciliation is provided from the *fund financial statements* to the *government-wide financial statements*.

Notes to financial statements provide additional detail concerning the financial activities and financial balances of the District. Additional information about the accounting practices of the District, investments of the District, capital assets and long-term debt are some of the items included in the *notes to financial statements*.

Financial Highlights

The following are the highlights of financial activity for the year ended September 30, 2021.

- ◆ The District's total liabilities exceeded total assets by \$(8,113,642) (net position). Net investment in capital assets for the District was \$139,095 and unrestricted net position was \$(8,252,737).
- ◆ Governmental activities revenues totaled \$671,634 while governmental activities expenses totaled \$1,125,885.

Economic Factors and Next Year's Budget

Buckeye Park Community Development District is an independent special district that is established pursuant to and governed by the provisions of Chapter 190, Florida Statutes. The District is governed by an elected Board of Supervisors which establishes policy and sets assessment rates. Assessment rates for fiscal year 2021 were established to provide for the operations of the District. The majority of the assessments levied by the District each year remain uncollected with no other revenue sources available to the District.

From 2011 onward, the District has not received a majority of assessments attached to the land formerly owned by the Developer. As a result, the District has been unable to make any debt service payments.

Buckeye Park Community Development District
NOTES TO FINANCIAL STATEMENTS
September 30, 2021

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the District have been prepared in conformity with Generally Accepted Accounting Principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District's more significant accounting policies are described below.

1. Reporting Entity

The Buckeye Park Community Development District (the "District") was established on June 19, 2007 pursuant to Chapter 190, Florida Statutes (the "Act"), and by Manatee County Ordinance 07-52. The Act provides among other things, the power to manage basic services for community development, the power to borrow money and issue bonds, and to levy and assess non-ad valorem assessments for the financing and delivery of capital infrastructure.

The District was established for the purposes of financing and managing the acquisition, construction, maintenance and operation of a portion of the infrastructure necessary for community development within the District.

The District is governed by a Board of Supervisors ("Board"), which is comprised of five members. The Supervisors are elected on an at large basis by the owners of the property within the District. The Board of Supervisors of the District exercises all powers granted to the District pursuant to Chapter 190, Florida Statutes.

As required by GAAP, these financial statements present the Buckeye Park Community Development District (the primary government) as a stand-alone government. The reporting entity for the District includes all functions of government in which the District's Board exercises oversight responsibility including, but not limited to, financial interdependency, selection of governing authority, designation of management, significant ability to influence operations and accountability for fiscal matters.

Based upon the application of the above-mentioned criteria as set forth by the Governmental Accounting Standards Board, the District has indentified Buckeye Partners CDD Holdings, Inc. as a component unit, which is discretely presented in the financial statements.

2. Measurement Focus and Basis of Accounting

The basic financial statements of the District are composed of the following:

- Government-wide financial statements
- Fund financial statements
- Notes to financial statements

Buckeye Park Community Development District
NOTES TO FINANCIAL STATEMENTS
September 30, 2021

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2. Measurement Focus and Basis of Accounting (Continued)

a. Government-wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting.

Government-wide financial statements report all non-fiduciary information about the reporting government as a whole. These statements include all the governmental activities of the primary government. The effect of interfund activity has been removed from these statements.

Governmental activities are supported by special assessments. Program revenues include charges for services and payments made by parties outside of the reporting government's citizenry if that money is restricted to a particular program. Program revenues are netted with program expenses in the Statement of Activities to present the net cost of each program.

Amounts paid to acquire capital assets are capitalized as assets, rather than reported as an expenditure. Proceeds of long-term debt are recorded as liabilities in the government-wide financial statements, rather than as an other financing source.

Amounts paid to reduce long-term indebtedness of the reporting government are reported as a reduction of the related liability, rather than as an expenditure.

b. Fund Financial Statements

The underlying accounting system of the District is organized and operated on the basis of separate funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Fund financial statements for the primary government's governmental funds are presented after the government-wide financial statements. These statements display information about major funds individually.

Governmental Funds

The District classifies fund balance according to Governmental Accounting Standards Board Statement 54 – Fund Balance Reporting and Governmental Fund Type Definitions. The Statement requires the fund balance for governmental funds to be reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2. Measurement Focus and Basis of Accounting (Continued)

b. Fund Financial Statements (Continued)

Governmental Funds (Continued)

The District has various policies governing the fund balance classifications.

Nonspendable Fund Balance – This classification consists of amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact.

Assigned Fund Balance – This classification consists of the Board of Supervisors' intent to be used for specific purposes, but are neither restricted nor committed. The assigned fund balances can also be assigned by the District's management company.

Fund Balance Spending Hierarchy – For all governmental funds except special revenue funds, when restricted, committed, assigned, and unassigned fund balances are combined in a fund, qualified expenditures are paid first from restricted or committed fund balance, as appropriate, then assigned and finally unassigned fund balances.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are considered to be available when they are collected within the current period or soon thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. Interest associated with the current fiscal period is considered to be an accrual item and so has been recognized as revenue of the current fiscal period.

Under the current financial resources measurement focus, only current assets and current liabilities are generally included on the balance sheet. The reported fund balance is considered to be a measure of "available spendable resources". Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

Because of their spending measurement focus, expenditure recognition for governmental fund types excludes amounts represented by non-current liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as governmental fund type expenditures or fund liabilities.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2. Measurement Focus and Basis of Accounting (Continued)

b. Fund Financial Statements (Continued)

Governmental Funds (Continued)

Amounts expended to acquire capital assets are recorded as expenditures in the year that resources are expended, rather than as fund assets. The proceeds of long-term debt are recorded as an other financing source rather than as a fund liability.

Debt service expenditures are recorded only when payment is due.

3. Basis of Presentation

a. Governmental Major Funds

General Fund – The General Fund is the primary operating fund of the District. It is used to account for all financial resources except those required to be accounted for in other funds.

Debt Service Fund – The Debt Service Fund is used to account for the accumulation of resources for the annual payment of principal and interest on long-term debt for the Series 2008A Bonds.

b. Non-current Governmental Assets/Liabilities

GASB Statement 34 requires that non-current governmental assets, such as land and buildings, and non-current governmental liabilities, such as general obligation bonds, be reported in the governmental activities column in the government-wide Statement of Net Position.

4. Assets, Deferred Outflow of Resources, Liabilities, and Net Position or Equity

a. Cash and Investments

Florida Statutes require state and local governmental units to deposit monies with financial institutions classified as "Qualified Public Depositories," a multiple financial institution pool whereby groups of securities pledged by the various financial institutions provide common collateral from their deposits of public funds. This pool is provided as additional insurance to the federal depository insurance and allows for additional assessments against the member institutions, providing full insurance for public deposits.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

**4. Assets, Deferred Outflow of Resources, Liabilities, and Net Position or Equity
(Continued)**

a. Cash and Investments (Continued)

The District maintains deposits with “Qualified Public Depositories” as defined in Chapter 280, Florida Statutes. All Qualified Public Depositories must place with the Treasurer of the State of Florida securities in accordance with collateral requirements determined by the State’s Chief Financial Officer. In the event of default by a Qualified Public Depository, the State Treasurer will pay public depositors all losses. Losses in excess of insurance and collateral will be paid through assessments between all Qualified Public Depositories.

The District is authorized to invest in those financial instruments as established by Section 218.415, Florida Statutes. The authorized investments consist of:

1. Direct obligations of the United States Treasury;
2. The Local Government Surplus Funds Trust or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperative Act of 1969;
3. Interest-bearing time deposits or savings accounts in authorized qualified public depositories;
4. Securities and Exchange Commission, registered money market funds with the highest credit quality rating from a nationally recognized rating agency.

b. Restricted Assets

Certain net positions of the District will be classified as restricted on the statement of net position because their use is limited either by law through constitutional provisions or enabling legislation; or by restrictions imposed externally by creditors. In a fund with both restricted and unrestricted net position, qualified expenses are considered to be paid first from restricted net position and then from unrestricted net position.

c. Capital Assets

Capital assets, which include land and infrastructure, are reported in governmental activities.

The District defines capital assets as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of one year. The valuation basis for all assets is historical cost.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend its useful life are not capitalized.

NOTES TO FINANCIAL STATEMENTS
September 30, 2021

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

4. Assets, Deferred Outflow of Resources, Liabilities, and Net Position or Equity (Continued)

c. Capital Assets (Continued)

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Depreciation of capital assets is computed and recorded by utilizing the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows:

Infrastructure	20-40 years
----------------	-------------

d. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line or effective interest method. Bonds payable are reported net of these premiums or discounts. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as current period expenses.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

e. Budgets

Budgets are prepared and adopted after public hearings for the governmental funds, pursuant to Chapter 190.065, Florida Statutes. The District utilizes the same basis of accounting for budgets as it does for revenues and expenditures in its various funds. Formal budgets are adopted for the general fund. The legal level of budgetary control is at the fund level. As a result, deficits in the budget columns of the accompanying financial statements may occur. All budgeted appropriations lapse at year end.

NOTE B – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

1. Explanation of Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position

“Total fund balances” of the District’s governmental funds, \$(7,771,546), differs from “net position” of governmental activities, \$(8,113,642), reported in the Statement of Net Position. This difference primarily results from the long-term economic focus of the Statement of Net Position versus the current financial resources focus of the Governmental Fund Balance Sheet. The effect of the differences is illustrated below.

Capital related items

When capital assets (land and infrastructure that are to be used in governmental activities) are purchased or constructed, the cost of those assets is reported as expenditures in governmental funds. However, the Statement of Net Position included those capital assets among the assets of the District as a whole.

Land		\$	6,317,127
Infrastructure			4,862,861
Accumulated depreciation			<u>(2,226,771)</u>
Total			<u>\$ 8,953,217</u>

Long-term debt transactions

Long-term liabilities applicable to the District’s governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. All liabilities (both current and long-term) are reported in the Statement of Net Position. Balances at September 30, 2021 were:

Bonds payable		\$	<u>(9,000,000)</u>
---------------	--	----	--------------------

Accrued interest

Accrued liabilities in the Statement of Net Position differ from the amount reported in governmental funds due to the accrued interest on bonds.

NOTE B – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (CONTINUED)

2. Explanation of Differences Between the Governmental Fund Operating Statements and the Statement of Activities

The “net change in fund balances” for government funds, \$(531,492), differs from the “change in net position” for governmental activities, \$(454,251), reported in the Statement of Activities. The differences arise primarily from the long-term economic focus of the Statement of Activities versus the current financial resources focus of the governmental funds. The effect of the differences is illustrated below.

Capital related transactions

Governmental funds report capital outlays as expenditures, however in the Statement of Activities, the cost of these assets is allocated over their estimated useful lives and reported as depreciation. As a result net position decreases by the amount of depreciation charged for the current year.

Depreciation	\$ <u>(175,798)</u>
--------------	---------------------

Long-term debt transactions

Repayment of long-term liabilities are reported as expenditures in the governmental fund statement but such repayments reduce liabilities in the Statement of Net Position and are eliminated in the Statement of Activities.

Debt principal maturities	\$ <u>245,000</u>
---------------------------	-------------------

Other debt transactions

Some expenses reported in the Statement of Activities do not require the use of current financial resources, therefore, are not reported as expenditures in governmental funds.

Net decrease in accrued interest payable	\$ <u>8,039</u>
--	-----------------

NOTES TO FINANCIAL STATEMENTS
September 30, 2021

NOTE C – CASH AND INVESTMENTS

All deposits are held in qualified public depositories and are included on the accompanying balance sheet as cash and investments.

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a formal deposit policy for custodial credit risk; however, they follow the provisions of Chapter 280, Florida Statutes regarding deposits and investments. As of September 30, 2021, the District's bank balance was \$35,502 and the carrying value was \$29,476. Exposure to custodial credit risk was as follows. The District maintains all deposits in a qualified public depository in accordance with the provisions of Chapter 280, Florida Statutes, which means that all deposits are fully insured by Federal Depositors Insurance or collateralized under Chapter 280, Florida Statutes.

As of September 30, 2021, the District had the following investments and maturities:

Investment	Maturities	Fair Value
Managed Money Market Account	N/A	<u>\$ 929,103</u>

The District categorizes its fair value measurements within the fair value hierarchy recently established by generally accepted accounting principles. The fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. The District uses a market approach in measuring fair value that uses prices and other relevant information generated by market transactions involving identical or similar assets, liabilities, or groups of assets and liabilities.

Assets or liabilities are classified into one of three levels. Level 1 is the most reliable and is based on quoted price for identical assets, or liabilities, in an active market. Level 2 uses significant other observable inputs when obtaining quoted prices for identical or similar assets, or liabilities, in markets that are not active. Level 3 is the least reliable and uses significant unobservable inputs that uses the best information available under the circumstances, which includes the District's own data in measuring unobservable inputs.

The managed money market fund is considered a mutual fund asset type for applying the criteria noted in the paragraph above and is considered a level 1 asset.

Investments

The District's investment policy allows management to invest funds in investments permitted under Section 218.415, Florida Statutes.

Buckeye Park Community Development District
NOTES TO FINANCIAL STATEMENTS
September 30, 2021

NOTE C – CASH AND INVESTMENTS (CONTINUED)

Interest Rate Risk

The bond indenture determines the allowable investments and maturities, while any surplus funds are covered by the alternative guidelines and are generally of a short duration thus limiting the District's exposure to interest rate risk.

Credit Risk

The District's investments are limited by State statutory requirements. As of September 30, 2021, the District did not own any investments which were rated.

Concentration of Credit Risk

The District places no limit on the amount it may invest in any one issuer. As of September 30, 2021, 100% of the District's investments are invested in Managed Money Market Accounts.

The types of deposits and investments and their level of risk exposure as of September 30, 2021 were typical of these items during the fiscal year then ended. The District considers any decline in fair value for certain investments to be temporary. In addition, the District has the ability to hold investments until its maturity date if the fair value is less than cost. The District's investments are recorded at fair value.

NOTE D – CAPITAL ASSETS

The following is a summary of changes in the capital assets for the year ended September 30, 2021:

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Supervisors
Buckeye Park Community Development District
Manatee County, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Buckeye Park Community Development District, as of and for the year ended September 30, 2021, and the related notes to the financial statements, and have issued our report thereon dated November 30, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Buckeye Park Community Development District's internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Buckeye Park Community Development District's internal control. Accordingly, we do not express an opinion on the effectiveness of Buckeye Park Community Development District's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did identify a deficiency in internal control note in a prior audit that we consider to still be a material weakness. However, material weaknesses may exist that have not been identified.

To the Board of Supervisors
Buckeye Park Community Development District

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Buckeye Park Community Development District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance that is required to be reported under *Government Auditing Standards*.

Prior Year Finding IC2015-03

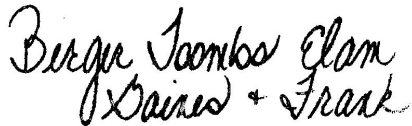

Finding: The District is not in compliance with certain provisions of its Bond Indenture including those relating to 1) collecting assessments to provide payment of debt service, 2) maintaining adequate funds in debt service reserve accounts, and 3) making its semi-annual debt service principal and interest payments.

Response: The District continues to take all actions to comply with the requirements of the bond indenture. An SPE has been established and if the land owned by the SPE is successfully sold, the District should be able to replenish the Debt Service Reserve Accounts. The District is working to correct this finding in the current year.

Current Status: No change to the prior year response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Manatee County, Florida

Report on the Financial Statements

We have audited the financial statements of the Buckeye Park Community Development District as of and for the year ended September 30, 2021, and have issued our report thereon dated November 30, 2021. Our report was modified to address various issues associated with the financial statements not including the activity of a legally separate component unit (a Special Purpose Entity).

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and Chapter 10.550, Rules of the Florida Auditor General.

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* and our Independent Auditor's Report on an examination conducted in accordance with AICPA Professionals Standards, AT-C Section 315 regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Financial Condition and Management

Section 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, requires us to apply appropriate procedures and communicate the results of our determination as to whether or not Buckeye Park Community Development District has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific conditions met. In connection with our audit, we determined that the Buckeye Park Community Development District did meet one of the conditions described in Section 218.503(1), Florida Statutes in that it failed to make a required debt service payment. The financial emergency is the result of a deteriorating financial condition because of the continued lack of funding from debt service special assessments sufficient to make the scheduled debt service payments.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial conditions assessment procedures as of September 30, 2021 for the Buckeye Park Community Development District. It is management's responsibility to monitor the Buckeye Park Community Development District's financial condition; our financial condition assessment was based in part on the representations made by management and the review of the financial information provided by the same.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

To the Board of Supervisors
Buckeye Park Community Development District

As required by Section 218.39(3)(c), Florida Statutes, and Section 10.554(1)(i)8, Rules of the Auditor General, the Buckeye Park Community Development District reported:

In connection with our audit, we did not note any such findings.

BUCKEYE PARK COMMUNITY DEVELOPMENT DISTRICT

MEMORANDUM

To: District Engineer
From: District Manager
Date: November 4, 2021
Subject: Stormwater Management Needs Analysis (Chapter 2021-194, Laws of Florida/HB53)

We are writing with an update regarding the new law requiring special districts that either own or operate stormwater management systems, stormwater management programs or wastewater services to create a 20-year needs analysis of such system(s).

The Office of Economic and Demographic Research (“OEDR”) recently promulgated additional details and an excel template for reporting the stormwater needs analyses (attached hereto for reference). Similar documents for the wastewater needs analysis will be available soon at which time we will again supplement this memorandum.

A brief summary of the new law and its requirements are set forth another memorandum, attached to this memorandum for your reference in **Exhibit A**. Please feel free to contact us with any questions.

When is the deadline?

For both wastewater and stormwater, the first analysis must be submitted by **June 30, 2022**, and updated every five (5) years thereafter. The needs analysis, along with the methodology and any supporting data necessary to interpret the results, must be submitted to the county in which the largest portion of the service area or stormwater system is located.

What steps should the District take?

- District engineers should review the stormwater needs analysis excel workbook and submit a work authorization for approval by the District’s Board prior to commencing work. We recommend presenting the work authorization to the Board as soon as is practical, but no later than the first quarter of 2022.
- District managers should review the stormwater needs analysis excel workbook and start entering information that is readily available. The district manager may be able to complete the “background information” section and provide data on stormwater O&M expenditures, among

other assistance.

- Once the work authorization is approved, the district manager should work with the district engineer to complete the remainder of the stormwater needs analyses with the final version submitted to the District no later than May 15, 2022.
- In some cases, districts may require outside consulting or evaluation to complete the needs analyses. Since the necessity of this additional step may not be immediately apparent, we recommend that district managers begin coordinating with their engineers as soon as possible.

Exhibit A

MEMORANDUM

To: District Engineer

From: District Manager

Date: September 7, 2021

Subject: Wastewater Services and Stormwater Management Needs Analysis(Chapter 2021-194, Laws of Florida/HB53)

We are writing to inform you of a new law requiring special districts that either own or operate stormwatermanagement systems, stormwater management programs or wastewater services to create a 20-year needsanalysis of such system(s). The requirements relating to wastewater services are found in Section 4 of Chapter 2021-194, Laws of Florida, creating Section 403.9301, Florida Statutes, and the requirements relating to stormwater management programs and systems are found in Section 5 of Chapter 2021-194, Laws of Florida, creating Section 403.9302, Florida Statutes (attached hereto for reference).

A brief summary of the new law and its requirements is set forth below. Please feel free to contact us withany questions.

What is required?

The Office of Economic and Demographic Research (“OEDR”) is expected to promulgate additional detailsabout the requirements of the needs analyses. However, certain general requirements are set forth in the new law.

For wastewater services, the needs analysis must include:

- a) A detailed description of the facilities used to provide wastewater services.
- b) The number of current and projected connections and residents served calculated in 5-year increments.
- c) The current and projected service area for wastewater services.
- d) The current and projected cost of providing wastewater services calculated in 5-year increments.
- e) The estimated remaining useful life of each facility or its major components.
- f) The most recent 5-year history of annual contributions to, expenditures from, and balances of any capital account for maintenance or expansion of any facility or its major

components.

g) The local government's plan to fund the maintenance or expansion of any facility or its major components. The plan must include historical and estimated future revenues and expenditures with an evaluation of how the local government expects to close any projected funding gap.

For stormwater management programs and stormwater management systems, the needs analysis must include:

a) A detailed description of the stormwater management program or stormwater management system and its facilities and projects.

b) The number of current and projected residents served calculated in 5-year increments.

c) The current and projected service area for the stormwater management program or stormwater management system.

d) The current and projected cost of providing services calculated in 5-year increments.

e) The estimated remaining useful life of each facility or its major components.

f) The most recent 5-year history of annual contributions to, expenditures from, and balances of any capital account for maintenance or expansion of any facility or its major components.

g) The local government's plan to fund the maintenance or expansion of any facility or its major components. The plan must include historical and estimated future revenues and expenditures with an evaluation of how the local government expects to close any projected funding gap.

When is the deadline?

For both wastewater and stormwater, the first analysis must be created by **June 30, 2022**, and the analysis must be updated every five (5) years thereafter. The needs analysis, along with the methodology and any supporting data necessary to interpret the results, must be submitted to the county in which the largest portion of the service area or stormwater system is located.

What steps should districts take?

District engineers and district managers should begin by evaluating what information is already available to the district, and what new information may need to be gathered. Each district should approve a work authorization for their district engineer to create the needs analysis report and should consider proposals for any outside consulting or evaluation that may be necessary, though in most cases we expect this will not be required. In order to provide ample time for completion of the necessary needs analysis reports, we recommend presenting these items for board consideration no later than the first quarter of 2022, or as soon thereafter as is practical. OEDR is anticipated to provide further guidelines for the reporting requirements, none of which we expect to be particularly burdensome, and which will likely

include information readily available to districts' engineering and/or environmental professionals. Once we receive further guidance, we will supplement this informational memorandum.

The full text of Florida House of Representatives House Bill 53 (2021) detailing the stormwater and wastewater analysis can be found [here](#).

TEMPLATE FOR LOCAL GOVERNMENTS AND SPECIAL DISTRICTS FOR PERFORMING A STORMWATER NEEDS ANALYSIS PURSUANT TO SECTION 5 OF SECTION 403.9302, FLORIDA STATUTES

INTRODUCTION

As part of the 2021 regular session, the Legislature recognized the need for a long-term planning process for stormwater and wastewater. Section 403.9302, Florida Statutes, requires a 20-year needs analysis from the local governments providing stormwater services. Because this planning document is forward-looking, it will necessarily include a large number of assumptions about future actions. These assumptions should be based on any available information coupled with best professional judgment of the individuals completing the document. Completing this template by June 30, 2022, will fulfill the statutory requirements for the first round of 20-year needs analyses for stormwater. The template was generated by EDR in cooperation with local governments, Special Districts, the Florida Department of Environmental Protection (DEP), the Water Management Districts, the Florida Stormwater Association, private consultants, and others. Use of this tool will help ensure that information is compiled consistently for the Office of Economic & Demographic Research's (EDR) report to the Legislature.

For the purposes of this document, a stormwater management program and a stormwater management system are as defined in statute (s. 403.031(15) and (16), F.S., respectively; language provided here: <https://www.flsenate.gov/Laws/Statutes/2021/403.031>). Plainly speaking, the "program" is the institutional framework whereby stormwater management activities (MS4 NPDES permit activities, and other regulatory activities, construction, operation and maintenance, etc.) are carried out by the public authority. The "system" comprises the physical infrastructure that is owned and/or operated by the local government or special district that specifically is intended to control, convey or store stormwater runoff for treatment and flood protection purposes.

For the purposes of this document, the following guiding principles have been adopted:

- Stormwater systems or facilities owned and operated by any of the following are excluded from reporting requirements for local governments and special districts:
 - o Private entities or citizens
 - o Federal government
 - o State government, including the Florida Department of Transportation (FDOT)
 - o Water Management Districts
 - o School districts
 - o State universities or Florida colleges
- Local government expenditures associated with routine operation and maintenance are fully funded prior to commencing new projects and initiatives.
- Local government submissions will include the activities of dependent special districts. Only independent special districts report separately. For a list of all special districts in the state and their type (*i.e.*, dependent or independent), please see the Department of Economic Opportunity's Official List of Special Districts at the following link: <http://specialdistrictreports.floridajobs.org/webreports/alphalist.aspx>.
- With respect to federal and state statutes and rulemaking, current law and current administration prevails throughout the 20-year period. In other words, the state's present legal framework (*i.e.*, the status quo) continues throughout the period.

GENERAL INSTRUCTIONS FOR USING THE TEMPLATE

Instructions for submitting the template are still under development. Additional information regarding submission and answers to frequently asked questions will be posted on EDR's website, along with other useful materials, here: <http://edr.state.fl.us/Content/natural-resources/stormwaterwastewater.cfm>

The statutory language forms the titles for each part. This template asks that you group your recent and projected expenditures in prescribed categories. A detailed list of the categories is provided in part 5.0.

The same project should not appear on multiple tables in the jurisdiction's response unless the project's expenditures are allocated between those tables. All expenditures should be reported in \$1,000s (*e.g.*, five hundred thousand dollars should be reported as \$500).

For any jurisdiction that is contracting with another jurisdiction where both could be reporting the same expenditure, please contact EDR for additional guidance. In situations where a reporting jurisdiction contracts with a non-reporting jurisdiction, (*i.e.*, FDOT, the water management districts, the state or federal government), the reporting jurisdiction should include the expenditures.

When reporting cost information, please only include the expenditures that have flowed, are flowing, or will likely flow through your jurisdiction's budget. While necessary to comply with the statute, the concept of "future expenditures" should be viewed as an expression of identified needs.

These projections are necessarily speculative and do not represent a firm commitment to future budget actions by the jurisdiction.

This Excel workbook contains three worksheets for data entry. (Along the bottom of the screen, the three tabs are highlighted green.) Empty cells with visible borders are unlocked for data entry. In the first tab, titled "Background through Part 4," the information requested is either text, a dropdown list (*e.g.*, Yes or No), or a checkbox. The next tab, "Part 5 through Part 8," contains tables for expenditure or revenue data as well as some follow-up questions that may have checkboxes, lists, or space for text.

In Part 5 and Part 6, the expenditure tables have space for up to 5 projects. More projects can be listed in the "Additional Projects" tab. This tab contains a table with space for up to 200 additional projects. In order for these additional projects and expenditures to be correctly classified and included in the final totals, each project must be assigned a Project Type and Funding Source Type from the dropdown lists in columns B and C.

Part 1.3 Current Stormwater Program Operation and Maintenance Activities

Please provide answers to the following questions regarding the operation and maintenance activities undertaken by your stormwater management program.

Notes or Comments on the above:

- Does your stormwater operation and maintenance program implement any of the following (answer Yes/No)

Routine mowing of turf associated with stormwater ponds, swales, canal/lake banks, etc. ?	
Debris and trash removal from pond skimmers, inlet grates, ditches, etc. ?	
Invasive plant management associated with stormwater infrastructure?	
Ditch cleaning?	
Sediment removal from the stormwater system (vacator trucks, other)?

Street sweeping?	
Pump and mechanical maintenance for trash pumps, flood pumps, alum injection, etc. ?	
Non-structural programs like public outreach and education?	
Other specific routine activities?	

Part 2. Detailed description of the stormwater management system and its facilities and projects (continued Section 403.9302(3)(a), F.S.)

A stormwater management system, as defined in the Introduction, includes the entire set of site design features and structural infrastructure for collection, conveyance, storage, infiltration, treatment, and disposal of stormwater. It may include drainage improvements and measures to prevent streambank channel erosion and habitat degradation. This section asks for a summary description of your stormwater management system. It is not necessary to provide geospatial asset data or a detailed inventory. For some, it may be possible to gather the required data from your Asset Management (AM) system. For others, data may be gathered from sources such as an MS4 permit application, aerial photos, past or ongoing budget investments, water quality projects, or any other system of data storage/management that is employed by the jurisdiction.

Please provide answers to the following questions regarding your stormwater system inventory. Enter zero (0) if your system does not include the component.

	Number	Unit of Measurement
Estimated feet or miles of buried culvert:		
Estimated feet or miles of open ditches/conveyances (lined and unlined) that are maintained by the stormwater program:		
Estimated number of storage or treatment basins (<i>i.e.</i> , wet or dry ponds):		
Estimated number of gross pollutant separators including engineered sediment traps such as baffle boxes, hydrodynamic separators, <i>etc.</i> :		
Number of chemical treatment systems (<i>e.g.</i> , alum or polymer injection):		
Number of stormwater pump stations:		
Number of dynamic water level control structures (<i>e.g.</i> , operable gates and weirs that control canal water levels):		
Number of stormwater treatment wetland systems:		
Other:		

Notes or Comments on any of the above:

Which of the following green infrastructure best management practices do you use to manage water flow and/or improve water quality (answer Yes/No):

Best Management Practice	Current	Planned

Rain gardens		
Green roofs		
Pervious pavement/pavers		
Littoral zone plantings		
Living shorelines		
Other Best Management Practices:		

Please indicate which resources or documents you used when answering these questions (check all that apply).

- MS4 permit application
- Aerial photos
- Past or ongoing budget investments
- Water quality projects

Other(s):

Part 3. The number of current and projected residents served calculated in 5-year increments (Section 403.9302(3)(b), F.S.)

Counties and municipalities: Instead of requiring separate population projections, EDR will calculate the appropriate population estimates for each municipality or the unincorporated area of the county. If your service area is less than or more than your local government’s population, please describe in the first text box provided below for part 4.0.

Independent Special Districts:

If an independent special district’s boundaries are completely aligned with a county or a municipality, identify that jurisdiction here:

Any independent special district whose boundaries do not coincide with a county or municipality must submit a GIS shapefile with the current and projected service area. EDR will calculate the appropriate population estimates based on that map. Submission of this shapefile also serves to complete Part 4.0 of this template.

Part 4.0 The current and projected service area for the stormwater management program or stormwater management system (Section 403.9302(3)(c), F.S.)

Rather than providing detailed legal descriptions or maps, this part of the template is exception-based. In this regard, if the stormwater service area is less than or extends beyond the geographic limits of your jurisdiction, please explain.

Similarly, if your service area is expected to change within the 20-year horizon, please describe the changes (e.g., the expiration of an interlocal agreement, introduction of an independent special district, etc.).

[Proceed to Part 5](#)

Part 5.0 The current and projected cost of providing services calculated in 5-year increments (Section 403.9302(3)(d), F.S.)

Given the volume of services, jurisdictions should use the template’s service groupings rather than reporting the current and projected cost of each individual service. Therefore, for the purposes of this document, “services” means:

1. Routine operation and maintenance (inclusive of the items listed in Part 1.3 of this document, ongoing administration, and non-structural programs)
2. Expansion (that is, improvement) of a stormwater management system.

Expansion means new work, new projects, retrofitting, and significant upgrades. Within the template, there are four categories of expansion projects

1. Flood protection, addressed in parts 5.2 and 5.3... this includes capital projects intended for flood protection/flood abatement
2. Water quality, addressed in part 5.2 and 5.3... this includes stormwater projects related to water quality improvement, such as BMAPs; projects to benefit natural systems through restoration or enhancement; and stormwater initiatives that are part of aquifer recharge projects
3. Resiliency, addressed in part 5.4... this includes all major stormwater initiatives that are developed specifically to address the effects of climate change, such as sea level rise and increased flood events
4. End of useful life replacement projects, addressed in part 6.0... this includes major expenses associated with the replacement of aging infrastructure

While numbers 3 and 4 have components that would otherwise fit into the first two categories, they are separately treated given their overall importance to the Legislature and other policymakers.

Expansion projects are further characterized as currently having either a committed funding source or no identified funding source. Examples of a committed funding source include the capacity to absorb the project’s capital cost within current budget levels or forecasted revenue growth; financing that is underway or anticipated (bond or loan); known state or federal funding (appropriation or grant); special assessment; or dedicated cash reserves for future expenditure.

All answers should be based on local fiscal years (LFY, beginning October 1 and running through September 30). Please use nominal dollars for each year, but include any expected cost increases for inflation or population growth. Please check the EDR website for optional growth rate schedules that may be helpful.

If you have more than 5 projects in a particular category, please use the "Additional Projects" tab. There, you can use dropdown lists to choose the project category and whether there is a committed funding source, then enter the project name and expenditure amounts.

Part 5.1 Routine Operation and Maintenance

Please complete the table below, indicating the cost of operation and maintenance activities for the current year and subsequent five-year increments throughout the 20-year horizon. Your response to this part should exclude future initiatives associated with resiliency or major expenses associated with the replacement of aging infrastructure; these activities are addressed in subparts 5.4 and 6.0. However, do include non-structural programs like public outreach and education in this category.

If specific cost data is not yet available for the current year, the most recent (2020-21) O&M value can be input into the optional growth rate schedules (available on EDR’s website as an Excel workbook). The most recent O&M value can be grown using the provided options for inflation, population growth, or some other metric of your choosing. If the growth in your projected total O&M costs is more than 15% over any five-year increment, please provide a brief explanation of the major drivers.

Part 5.2 Future Expansion (Committed Funding Source)

Please list expansion projects and their associated costs for the current year and subsequent five-year increments throughout the 20-year planning horizon. In this section, include stormwater system expansion projects or portions of projects with a committed funding source. If you include a portion of a project that is not fully funded, the project's remaining cost must be included in part 5.3, Expansion Projects with No Identified Funding Source.

Though many, if not most, stormwater projects benefit both flood protection and water quality, please use your best judgment to either allocate costs or simply select the primary purpose from the two categories below.

5.2.1 Flood Protection (Committed Funding Source): Provide a list of all scheduled new work, retrofitting and upgrades related to flood protection/flood abatement. Include infrastructure such as storage basins, piping and other conveyances, land purchases for stormwater projects, etc. Also include major hardware purchases such as vactor/jet trucks.

5.2.2 Water Quality Projects (Committed Funding Source): Please provide a list of scheduled water quality projects in your jurisdiction, such as treatment basins, alum injection systems, green infrastructure, water quality retrofits, etc., that have a direct stormwater component. The projected expenditures should reflect only those costs.

- If you are party to an adopted BMAP, please include the capital projects associated with stormwater in this table. Include BMAP project number, cost to your jurisdiction, and year(s) that capital improvement costs are to be incurred. For reference, DEP publishes a complete list of adopted BMAP projects as an appendix in their Annual STAR Report.

Part 5.3 Future Expansion with No Identified Funding Source

Please provide a list of known expansion projects or anticipated need(s) without formal funding commitments(s), formal pledges, or obligations. If you included a portion of a project that was partially covered by a committed source in part 5.2 above, list the projects and their remaining costs below.

5.3.1 Future Flood Protection with No Identified Funding Source: Please provide a list of future flood protection/flood abatement projects, associated land purchases, or major hardware purchases that are needed in your jurisdiction over the next 20 years. Future needs may be based on Master Plans, Comprehensive Plan Elements, Water Control Plans, areas of frequent flooding, hydrologic and hydraulic modeling, public safety, increased frequency of maintenance, desired level of service, flooding complaints, etc.

5.3.2 Future Water Quality Projects with no Identified Funding Source: Please provide a list of future stormwater projects needed in your jurisdiction over the next 20 years that are primarily related to water quality issues. Future needs may be based on proximity to impaired waters or waters with total maximum daily loads (TMDLs), BMAPs, state adopted Restoration Plans, Alternative Restoration Plans, or other local water quality needs.

- If you are party to an adopted BMAP, please list capital projects associated with stormwater. Include BMAP project number, cost to your jurisdiction, and year(s) that capital improvement costs are to be incurred.
- List other future water quality projects, including those in support of local water quality goals as well as those identified in proposed (but not yet adopted) BMAPs.

Part 5.4 Stormwater projects that are part of resiliency initiatives related to climate change

Please list any stormwater infrastructure relocation or modification projects and new capital investments specifically needed due to sea level rise, increased flood events, or other adverse effects of climate change. When aggregating, include O&M costs for these future resiliency projects and investments in this table (not in part 5.1). If your jurisdiction participates in a Local Mitigation Strategy (LMS), also include the expenditures associated with your stormwater management system in this category (for example, costs identified on an LMS project list).

- Has a vulnerability assessment been completed for your jurisdiction’s storm water system?
- If no, how many facilities have been assessed?
- Does your jurisdiction have a long-range resiliency plan of 20 years or more?
- If yes, please provide a link if available:
- If no, is a planning effort currently underway?

Part 6.0 The estimated remaining useful life of each facility or its major components (Section 403.9302(3)(e), F.S.)

Rather than reporting the exact number of useful years remaining for individual components, this section is constructed to focus on infrastructure components that are targeted for replacement and will be major expenses within the 20-year time horizon. Major replacements include culverts and pipe networks, control structures, pump stations, physical/biological filter media, etc. Further, the costs of retrofitting when used in lieu of replacement (such as slip lining) should be included in this part. Finally, for the purposes of this document, it is assumed that open storage and conveyance systems are maintained (as opposed to replaced) and have an unlimited service life.

In order to distinguish between routine maintenance projects and the replacement projects to be included in this part, only major expenses are included here. A major expense is defined as any single replacement project greater than 5% of the jurisdiction's total O&M expenditures over the most recent five-year period (such as a project in late 2021 costing more than 5% of the O&M expenditures for fiscal years 2016-2017 to 2020-2021).

If you have more than 5 projects in a particular category, please use the "Additional Projects" tab. There, you can use dropdown lists to choose the project category and whether there is a committed funding source, then enter the project name and expenditure amounts.

Part 7.0 The most recent 5-year history of annual contributions to, expenditures from, and balances of any capital account for maintenance or expansion of any facility or its major components. (Section 403.9302(3)(f), F.S.)

This part of the template also addresses a portion of s. 403.9302(3)(g), F.S., by including historical expenditures. Many local governments refer to these as “actual” expenditures.

Consistent with expenditure projections, the jurisdiction’s actual expenditures are categorized into routine O&M, expansion, resiliency projects, and replacement of aging infrastructure. Additionally, the table includes space for reserve accounts. EDR’s interpretation of subparagraph 403.9302(3)(f), F.S., is that “capital account” refers to any reserve account developed specifically to cover future expenditures.

Note that for this table:

- Expenditures for local fiscal year 2020-21 can be estimated based on the most current information if final data is not yet available.
- Current Year Revenues include tax and fee collections budgeted for that fiscal year as well as unexpended balances from the prior year (balance forward or carry-over) unless they are earmarked for the rainy day or a dedicated reserve as explained in the following bullets.
- Bond proceeds should reflect only the amount expended in the given year.
- A reserve is a dedicated account to accumulate funds for a specific future expenditure.
- An all-purpose rainy day fund is a type of working capital fund typically used to address costs associated with emergencies or unplanned events.

The sum of the values reported in the "Funding Sources for Actual Expenditures" columns should equal the total "Actual Expenditures" amount. The cells in the "Funding Sources for Actual Expenditures" section will be highlighted red if their sum does not equal the "Actual Expenditures" total.

If you do not have a formal reserve dedicated to your stormwater system, please enter zero for the final two reserve columns.

Part 8.0 The local government's plan to fund the maintenance or expansion of any facility or its major components. The plan must include historical and estimated future revenues and expenditures with an evaluation of how the local government expects to close any projected funding gap (Section 403.9302(3)(g), F.S.)

In this template, the historical data deemed necessary to comply with s. 403.9302(3)(g), F.S., was included in part 7.0. This part is forward looking and includes a funding gap calculation. The first two tables will be auto-filled from the data you reported in prior tables. To do this, EDR will rely on this template's working definition of projects with committed funding sources, *i.e.*, EDR assumes that all committed projects have committed revenues. Those projects with no identified funding source are considered to be unfunded. EDR has automated the calculation of projected funding gaps based on these assumptions.

Committed Funding Source	2022-23 to 2026-27	2027-28 to 2031-32	2032-33 to 2036-37	2037-38 to 2041-42

TEMPLATE FOR LOCAL GOVERNMENTS AND SPECIAL DISTRICTS FOR PERFORMING A STORMWATER NEEDS ANALYSIS PURSUANT TO SECTION 5 OF SECTION 403.9302, FLORIDA STATUTES

INTRODUCTION

As part of the 2021 regular session, the Legislature recognized the need for a long-term planning process for stormwater and wastewater. Section 403.9302, Florida Statutes, requires a 20-year needs analysis from the local governments providing stormwater services. Because this planning document is forward-looking, it will necessarily include a large number of assumptions about future actions. These assumptions should be based on any available information coupled with best professional judgment of the individuals completing the document.

Completing this template by June 30, 2022, will fulfill the statutory requirements for the first round of 20-year needs analyses for stormwater. The template was generated by EDR in cooperation with local governments, Special Districts, the Florida Department of Environmental Protection (DEP), the Water Management Districts, the Florida Stormwater Association, private consultants, and others. Use of this tool will help ensure that information is compiled consistently for the Office of Economic & Demographic Research's (EDR) report to the Legislature.

For the purposes of this document, a stormwater management program and a stormwater management system are as defined in statute (s. 403.031(15) and (16), F.S., respectively; language provided here: <https://www.flsenate.gov/Laws/Statutes/2021/403.031>). Plainly speaking, the "program" is the institutional framework whereby stormwater management activities (MS4 NPDES permit activities, and other regulatory activities, construction, operation and maintenance, etc.) are carried out by the public authority. The "system" comprises the physical infrastructure that is owned and/or operated by the local government or special district that specifically is intended to control, convey or store stormwater runoff for treatment and flood protection purposes.

For the purposes of this document, the following guiding principles have been adopted:

- Stormwater systems or facilities owned and operated by any of the following are excluded from reporting requirements for local governments and special districts:
 - o Private entities or citizens
 - o Federal government
 - o State government, including the Florida Department of Transportation (FDOT)
 - o Water Management Districts
 - o School districts
 - o State universities or Florida colleges
- Local government expenditures associated with routine operation and maintenance are fully funded prior to commencing new projects and initiatives.
- Local government submissions will include the activities of dependent special districts. Only independent special districts report separately. For a list of all special districts in the state and their type (*i.e.*, dependent or independent), please see the Department of Economic Opportunity's Official List of Special Districts at the following link: <http://specialdistrictreports.floridajobs.org/webreports/alphalist.aspx>.
- With respect to federal and state statutes and rulemaking, current law and current administration prevails throughout the 20-year period. In other words, the state's present legal framework (*i.e.*, the status quo) continues throughout the period.

GENERAL INSTRUCTIONS FOR USING THE TEMPLATE

Instructions for submitting the template are still under development. Additional information regarding submission and answers to frequently asked questions will be posted on EDR’s website, along with other useful materials, here: <http://edr.state.fl.us/Content/natural-resources/stormwaterwastewater.cfm>

The statutory language forms the titles for each part. This template asks that you group your recent and projected expenditures in prescribed categories. A detailed list of the categories is provided in part 5.0.

The same project should not appear on multiple tables in the jurisdiction’s response unless the project’s expenditures are allocated between those tables. All expenditures should be reported in \$1,000s (e.g., five hundred thousand dollars should be reported as \$500).

For any jurisdiction that is contracting with another jurisdiction where both could be reporting the same expenditure, please contact EDR for additional guidance. In situations where a reporting jurisdiction contracts with a non-reporting jurisdiction, (i.e., FDOT, the water management districts, the state or federal government), the reporting jurisdiction should include the expenditures.

When reporting cost information, please only include the expenditures that have flowed, are flowing, or will likely flow through your jurisdiction’s budget. While necessary to comply with the statute, the concept of “future expenditures” should be viewed as an expression of identified needs.

These projections are necessarily speculative and do not represent a firm commitment to future budget actions by the jurisdiction.

This Excel workbook contains three worksheets for data entry. (Along the bottom of the screen, the three tabs are highlighted green.) Empty cells with visible borders are unlocked for data entry. In the first tab, titled "Background through Part 4," the information requested is either text, a dropdown list (e.g., Yes or No), or a checkbox. The next tab, "Part 5 through Part 8," contains tables for expenditure or revenue data as well as some follow-up questions that may have checkboxes, lists, or space for text.

Good evening, John –

It was great speaking with you this morning. As discussed, attached are the relevant documents for Buckeye Park as it relates to the new Florida law now requiring special districts that own or operate stormwater management systems or programs, or wastewater services to create a 20-year needs analysis of such system(s).

Attached to this email are the following documents:

- 1) **Memo on Stormwater Implementation.pdf** – a memorandum detailing the new law and giving a brief summary of the new reporting requirements for the District(s);
- 2A) **Stormwater_Needs_Analysis.pdf** – a pdf of submission requirements for the Office of Economic and Demographic Research (OEDR); and
- 2B) **Stormwater_Needs_Analysis.xlsx** – the 20-year needs analysis workbook to be completed for submission to OEDR.

We'd like to have a draft of the needs analysis to the District Attorney by March 15, 2022, and we've prepared the proposed timeline to keep things on track.

December 6-10: Call with District Engineer and District Attorney to go over 20-year needs analysis submission requirements.

January 14, 2022: District Engineer to submit questions for District Attorney and District Manager related to submission.

November 8, 2021-January 31, 2022: District Engineer to review 20-year needs analysis, determine overall cost, and submit a Work Authorization to District Manager.

March 15, 2021: District Engineer to submit completed 20-year needs analysis to District Attorney and District Manager for review.

We'll circulate additional information related to the **Stormwater_Needs_Analysis.xlsx** in the coming weeks, as it becomes available.

Look forward to working with you and please let us know if you have any questions.

Best regards,

Andrew J. Gill

Subject: Introduction Buckeye Park

Good morning, John -

As a follow up to a voice message I left with you late last week, I wanted to introduce myself. I'm one of Jim Ward's new associates and currently assisting him with a few new Buckeye Park Community Development District matters. I believe you assisted this District in the past and I wanted to check your availability for assisting with an upcoming CDD reporting requirement. For background, there is a new Florida law now requiring special districts that own or operate stormwater management systems or programs, or wastewater services to create a 20-year Needs Analysis of such system(s). The 20-year Needs Analysis is a form to be filed with the state by June 30, 2022. I've attached for your records a pdf of the form, which details the state requirements. Additionally, because this Needs Analysis spans 20 years, many of the sections of the pdf aren't applicable at this point. Please let me know if you have any questions and look forward to speaking with you.

Best regards,
