Staff Review

The first order of business is the call to order and roll call.

The second order of business is the Notice of Advertisement of the Public Hearings.

The third order of business is the consideration of the Minutes from the Buckeye Park Board of Supervisors Meeting held on February 6, 2025.

The fourth order of business is acceptance of the Audited Financial Statements for Fiscal Year 2024, covering the period October 1, 2023, through September 30, 2024. A representative of the Audit Firm Berger, Toombs, Elam, Gaines & Frank will join the meeting to fully review the audit with the Board.

The fifth order of business deals with two (2) required Public Hearings to consider the adoption of the District's Fiscal Year 2026 Budget, Assessments, General Fund Special Assessment Methodology, and adoption of a cap rate for the operations and maintenance activities of the District for notice purposes only.

The first Public Hearing deals with the adoption of the Fiscal Year 2026 Budget which includes both the General Fund operations and the Debt Service Fund for the Series 2007 Bonds. At the conclusion of the hearing, will be consideration of **Resolution 2025-5** which adopts the Fiscal Year 2026 Budget. The budget has not changed since approval by the Board at the February 2, 2026, meeting. As is usual, the enclosed budget has now split the amounts that will be billed on-roll and billed directly.

After the adoption of the budget, the resolution provides the Manager's office to continue to update the roll if property is sold, until the District is required to certify the roll to the Manatee County Property Appraiser, which is generally in early September of each year.

This second Public Hearing is a consequence of the Budget Adoption process and sets in place the required documents that are all contained in the Fiscal Year 2026 Budget. **Resolution 2025-6** does essentially two (2) things. First, it imposes the special assessments for the general fund and the debt service fund; second, it arranges for the certification of an assessment roll by the Chairman or his designee, which in this case is the District Manager, to the Manatee County Tax Collector and permits the District Manager to update the roll as it may be modified as limited by law subsequent to the adoption date of **Resolution 2025-6**.

The sixth item is consideration of **Resolution 2025-7**, a Resolution of the Board setting the proposed meeting schedule for Fiscal Year 2026. As you may recall, to the extent that the District has a regular meeting schedule the District is required to advertise this schedule (legal advertisement) on a periodic basis at the beginning of the Fiscal Year.

The proposed meeting schedule is the first Thursday of the Month at **11:00 a.m.** at the **Country Inn and Suites, Bradenton-Lakewood Ranch, 5610 Manor Hill Lane, Bradenton, Florida 34203**.

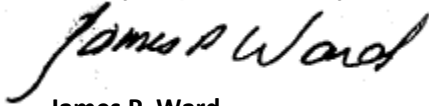

October 2, 2025	November 6, 2025
December 4, 2025	January 1, 2026 – No Meeting
February 5, 2026	March 5, 2026
April 2, 2026	May 7, 2026
June 4, 2026	July 2, 2026 – No Meeting
August 6, 2026	September 3, 2026

The seventh order of business is staff reports by the District Attorney, District Engineer, and the District Manager. The District Manager will report on important meeting dates for Fiscal Year 2025, and Financial Statements (unaudited) for the period(s) ending March 31, 2025, April 30, 2025, and May 31, 2025.

The remainder of the agenda is general in nature and if you have any questions and/or comments before the meeting, please do not hesitate to contact me directly by phoning (954) 658-4900.

67 **34203**

68
69 Mr. Ward noted the Board wished to try to dissolve the CDD.

70
71 *Mr. Fischer: There are barriers to making that happen.*

72
73 *Mr. Kompothecras: Basically, there was a debt.*

74
75 *Mr. Ward: Two of the lots, lots 1 and 2, have debt on them from the original development. The original*
76 *development went into foreclosure, etc., so there is debt on those lots. To the extent that there is debt*
77 *on those lots, the only way to go through the process that Gary wants to, which is to try to dissolve the*
78 *District, would be if those two lot owners pay off their debt. To the extent that they don't want to do*
79 *that then we are stuck with having the CDD in place. That's the very short version.*

80
81 *Mr. Fischer: What kind of pressure can we put on those two?*

82
83 *Mr. Ward: As a District there is no pressure.*

84
85 *Mr. Nole: So, when the gentleman at BTI bought that lot, he assumed the debt?*

86
87 *Mr. Kompothecras: Whoever owns the lot owns the debt, exactly. However, if we are the association,*
88 *what do we control?*

89
90 *Mr. Ward: A CDD is a governmental agency, so it has pretty limited authority. We don't have HOA*
91 *authority, so you don't have land use control or zoning control.*

92
93 *Mr. Fischer: Can we form an HOA?*

94
95 *Mr. Ward: I'm not an HOA guy, but if I remember correctly, you can, as long as you have 100% owner*
96 *agreement, which would include lots 1 and 2.*

97
98 *Mr. Kompothecras: If we could put some pressure on them to pay their debt, we could do this which*
99 *would save us money. It would save everyone money, including them.*

100
101 Discussion continued regarding getting lots 1 and 2 to pay their debt.

102
103 Mr. Ward stated lot 1 owed approximately \$1.3 million dollars and lot 2 owed approximately \$139,000
104 dollars.

105
106 Discussion continued regarding lots 1 and 2; contacting the owners of lots 1 and 2; what kind of power
107 the CDD had as a governmental entity.

108
109 Mr. Ward explained the CDD had the power to assess property for purposes of capital assessment,
110 operations and maintenance of facilities owned by the CDD, but did not have the power to enforce
111 anything over a property owner.

112
113 *Mr. Scott Steady: Originally, all of the property had debt and assessments, but on the downturn your*
114 *properties came into a special purpose entity which sold the property to you and that money was used to*
115 *pay the bond holders whatever they got for that property. The bond holders basically got whatever the*
116 *property was then sold for. Unfortunately, you ask what power we have, the reality is, because of the*
117 *documents, you actually have a fiduciary duty as board members to make sure that they pay their*
118 *assessments. The only thing I can see, and I've been through this before, is to convince them that they*
119 *save money, and/or offer them some money to pay it off. That's the only thing that you can do. Get to*
120 *somebody and say, hey, if we extinguish the district, you can save money on the O and M, and if it's in*
121 *everyone's interest you could say, hey, we'll throw in \$50,000 dollars if you pay your \$1.3 million. I'm not*
122 *suggesting you do it, but that's it.*

123
124 *Mr. Nole: It would benefit all of us to take the cumulative fees that we all have and say we'll kick in the*
125 *amount of fees if you'll pay it off.*

126
127 *Mr. Steady: You've got to convince them it's a business decision.*

128
129 Discussion ensued regarding the possibility of offering a 10% discount to lot 1 if they pay off their \$1.3
130 million dollar debt using the CDD funds; contacting the property owner regarding the 10% incentive; and
131 figuring out who the lot 1 property owner was.

132
133 *Mr. Ward: We are approving your proposed budget today. I backed off the number, but if you don't*
134 *want to back off the number because you want more cash, then we can just leave it at the \$126,000*
135 *dollar number. What I did was, I took things out of the budget to reduce it. I reduced it from \$126,000*
136 *to \$73,000 dollars. That leaves you, by the end of next year, \$195,000 dollars.*

137
138 Mr. Kompothecras noted the new budget still left enough cash to pay a 10% incentive for lot 1. He
139 asked what was removed from the budget to lower the budget.

141 *Mr. Ward: What I took out was, there was a line item for Aquatic Weed Control for \$12,000 dollars. I*
142 *checked; we haven't paid a bill for spraying the lakes for a while. Public area landscaping, there is a*
143 *budget line item for \$20,000 dollars. I left that in because I guess somebody does do the mowing out*
144 *there. I took out a contingency of \$23,000 dollars. We used to have security patrols there, I took all of*
145 *that out. I took out the stuff that we clearly did not need. And I lowered my fee from \$25,000 to \$20,000*
146 *dollars this year.*

147
148 The Board thanked Mr. Ward.

149
150 *Mr. Nole: As a CDD we are limited in our power, but we can control parking, sidewalks, and easements.*
151 *Do we have control over that?*

152
153 *Mr. Ward: Parking, no. You can't control parking. But to the extent that a CDD owns a sidewalk or the*
154 *road right-of-way or –*

155
156 *Mr. Nole: Here's where I'm going. My issue with FedEx is they are parking on the sidewalk, the easement*
157 *and the street. And then their trucks are coming out onto the road, stopping and (indecipherable). So, if*
158 *we can't get them to cooperate with us, then we need to make it a little more difficult for them. Once*
159 *you start towing their cars away there is going to be an issue.*

160
161 Discussion ensued regarding FedEx parking in inappropriate areas and forcing FedEx to park only in
162 appropriate areas.

163
164 *Mr. Ward: If you want to tow something on District property it has to be posted as a no trespassing sign*
165 *and then I can call the police and ask them – but if it's on a roadway that the District owns, a public*
166 *roadway, then I can't put a no trespassing sign. To the extent of posting a no trespassing sign, we have*
167 *to make sure we actually own it. This particular district, half the stuff I don't know what we did, because*
168 *it was in foreclosure when I came on; so those roadways, I don't have any idea whether we own any of*
169 *that stuff. We are going to have to figure it out.*

170
171 *Mr. Nole: I'm not talking about the roadway. I'm talking about the easement, the sidewalk and the*
172 *easement from the sidewalk to the road and then they do park also sometimes on the road.*

173
174 *Mr. Ward: We need to figure out who actually owns that area. It might be an easement to the CDD for*
175 *maintenance, or they actually own it, I don't have a clue. If it's only an easement over the grass area,*
176 *that's a different story also; we have no rights of trespass on an easement and couldn't post a sign if it's*
177 *an easement. We could post it if we have fee title to the underlying land.*

178
179 *Mr. Kompothecras: What we could do is we could call code enforcement with Manatee County and have*
180 *them address the parking issues.*

181
182 *Mr. Ward: That's actually a better idea than the no trespassing sign. That's a great idea.*

183
184 *Mr. Kompothecras: I need to send them a letter so they know who to call so we can get them to the*
185 *table.*

186
187 *Mr. Fischer: They might just comply.*
188

Mr. Nole: They are not going to be able to comply. I counted over 40 cars.

Mr. Ward: I think you should try the code enforcement idea first. The thing we've got to be careful of is, if it's a code violation on a property we own, we are going to get the violation, so I do need to figure out who owns what. Scott and I will do that. Clearly on the sidewalk, my gut is, that's probably an easement, and if it's an easement, it's a better idea for the code enforcement violation.

On MOTION made by Gary Kompothecras, seconded by Michael Nole, and with all in favor, Resolution 2025-4 was adopted, and the Chair was authorized to sign.

FIFTH ORDER OF BUSINESS

Supervisor's Requests

Mr. Ward asked if there were any Supervisor's requests.

Mr. Kompothecras asked if Mr. Ward would have the ownership and easement information for the next meeting.

Mr. Ward responded in the affirmative.

Discussion ensued regarding the water treatment facility which was not owned by the CDD.

Mr. Steady stated none of the CDD infrastructure was being used for water treatment.

Discussion continued regarding what the CDD owned, what the County owned, and what the property owners owned; and what could be done to coerce lot 1 to pay its debt.

Mr. Ward: The question was, can the District sell property?

Mr. Steady: My understanding is whatever we owned we could convey to an HOA if the CDD went away. The game plan we've always talked about, if and when we can get rid of the District, whatever we owned, you would have to create an HOA to take.

Mr. Ward: The other problem with that, to the extent that you have bonds outstanding, you can't sell it. You can't do anything unless lots 1 and 2 clear the bond debt. He explained why lots 1 and 2 were the only lots with remaining debt.

Mr. Steady: The reason the County wound up with the property that they have for the police station is there was so much debt on the property in taxes, that the taxes were never paid, the bond holder was not going to pay them, so after 7 years of no one paying taxes, it is cheated, which is the term, and it basically went to the County. The County got that big parcel that had a big debt assessment on it for free because when it was cheated to the County everything was wiped out. The District's debt, the taxes, and anything else. So, there are three stories; there are two properties that still have debt because they've never gone away, there are the properties that went into default that were sold to you guys that came out clean, and then the County ended up with a property for free.

REPORT OF INDEPENDENT AUDITORS

To the Board of Supervisors
Buckeye Park Community Development District
Manatee County, Florida

Report on Audit of the Financial Statements

Opinion

We have audited the financial statements of the governmental activities and each major fund of Buckeye Park Community Development District (the "District"), as of and for the year ended September 30, 2024, and the related notes to financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Buckeye Park Community Development District as of September 30, 2024, and the respective changes in financial position and the budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS), and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

To the Board of Supervisors
Buckeye Park Community Development District

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for one year beyond the financial statement date, including currently known information that may raise substantial doubt thereafter.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore, is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining on a test basis, evidence regarding the amounts, and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

To the Board of Supervisors
Buckeye Park Community Development District

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the *Governmental Accounting Standards Board* who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated March 21, 2025 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations and contracts.

The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Buckeye Park Community Development District's internal control over financial reporting and compliance.

Buckeye Park Community Development District
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2024

Management's discussion and analysis of Buckeye Park Community Development District (the "District") financial performance provides an objective and easily readable analysis of the District's financial activities. The analysis provides summary financial information for the District and should be read in conjunction with the District's financial statements.

OVERVIEW OF THE FINANCIAL STATEMENTS

The District's basic financial statements comprise three components: 1) *Government-wide financial statements*, 2) *Fund financial statements*, and 3) *Notes to financial statements*. The *Government-wide financial statements* present an overall picture of the District's financial position and results of operations. The *Fund financial statements* present financial information for the District's major funds. The *Notes to financial statements* provide additional information concerning the District's finances.

The *Government-wide financial statements* are the **statement of net position** and the **statement of activities**. These statements use accounting methods similar to those used by private-sector companies. Emphasis is placed on the net position of governmental activities and the change in net position. Governmental activities are primarily supported by special assessments.

The **statement of net position** presents information on all assets and liabilities of the District, with the difference between assets and liabilities reported as net position. Net position is reported in three categories; 1) net investment in capital assets, 2) restricted, and 3) unrestricted. Assets, liabilities, and net position are reported for all Governmental activities.

The **statement of activities** presents information on all revenues and expenses of the District and the change in net position. Expenses are reported by major function and program revenues relating to those functions are reported, providing the net cost of all functions provided by the District. To assist in understanding the District's operations, expenses have been reported as governmental activities. Governmental activities financed by the District include general government, physical environment and debt service.

Fund financial statements present financial information for governmental funds. These statements provide financial information for the major funds of the District. Governmental fund financial statements provide information on the current assets and liabilities of the funds, changes in current financial resources (revenues and expenditures), and current available resources.

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Fund financial statements include a **balance sheet** and a **statement of revenues, expenditures and changes in fund balances** for all governmental funds. A **statement of revenues, expenditures, and changes in fund balances – budget and actual** is provided for the District's General Fund. *Fund financial statements* provide more detailed information about the District's activities. Individual funds are established by the District to track revenues that are restricted to certain uses or to comply with legal requirements.

The *government-wide financial statements* and the *fund financial statements* provide different pictures of the District. The *government-wide financial statements* provide an overall picture of the District's financial standing. These statements are comparable to private-sector companies and give a good understanding of the District's overall financial health and how the District paid for the various activities, or functions, provided by the District. All assets of the District, including land and infrastructure are reported in the **statement of net position**. All liabilities, including principal outstanding on bonds are included. The **statement of activities** includes depreciation on all long-lived assets of the District, but transactions between the different functions of the District have been eliminated in order to avoid "doubling up" the revenues and expenses. The *fund financial statements* provide a picture of the major funds of the District. In the case of governmental activities, outlays for long lived assets are reported as expenditures and long-term liabilities, such as capital improvement bonds, are not included in the fund financial statements. To provide a link from the *fund financial statements* to the *government-wide financial statements*, a reconciliation is provided from the *fund financial statements* to the *government-wide financial statements*.

Notes to financial statements provide additional detail concerning the financial activities and financial balances of the District. Additional information about the accounting practices of the District, investments of the District, capital assets and long-term debt are some of the items included in the *notes to financial statements*.

Financial Highlights

The following are the highlights of financial activity for the year ended September 30, 2024.

Buckeye Park Community Development District
NOTES TO FINANCIAL STATEMENTS
September 30, 2024

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the District have been prepared in conformity with Generally Accepted Accounting Principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District's more significant accounting policies are described below.

1. Reporting Entity

The Buckeye Park Community Development District (the "District") was established on June 19, 2007 pursuant to Chapter 190, Florida Statutes (the "Act"), and by Manatee County Ordinance 07-52. The Act provides among other things, the power to manage basic services for community development, the power to borrow money and issue bonds, and to levy and assess non-ad valorem assessments for the financing and delivery of capital infrastructure.

The District was established for the purposes of financing and managing the acquisition, construction, maintenance and operation of a portion of the infrastructure necessary for community development within the District.

The District is governed by a Board of Supervisors ("Board"), which is comprised of five members. The Supervisors are elected on an at large basis by the owners of the property within the District. The Board of Supervisors of the District exercises all powers granted to the District pursuant to Chapter 190, Florida Statutes.

As required by GAAP, these financial statements present the Buckeye Park Community Development District (the primary government) as a stand-alone government. The reporting entity for the District includes all functions of government in which the District's Board exercises oversight responsibility including, but not limited to, financial interdependency, selection of governing authority, designation of management, significant ability to influence operations and accountability for fiscal matters.

Based upon the application of the above-mentioned criteria as set forth by the Governmental Accounting Standards Board, the District has identified no component units.

2. Measurement Focus and Basis of Accounting

The basic financial statements of the District are composed of the following:

- Government-wide financial statements
- Fund financial statements
- Notes to financial statements

Buckeye Park Community Development District
NOTES TO FINANCIAL STATEMENTS
September 30, 2024

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2. Measurement Focus and Basis of Accounting (Continued)

a. Government-wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting.

Government-wide financial statements report all non-fiduciary information about the reporting government as a whole. These statements include all the governmental activities of the primary government. The effect of interfund activity has been removed from these statements.

Governmental activities are supported by special assessments. Program revenues include charges for services and payments made by parties outside of the reporting government's citizenry if that money is restricted to a particular program. Program revenues are netted with program expenses in the Statement of Activities to present the net cost of each program.

Amounts paid to acquire capital assets are capitalized as assets, rather than reported as an expenditure. Proceeds of long-term debt are recorded as liabilities in the government-wide financial statements, rather than as an other financing source.

Amounts paid to reduce long-term indebtedness of the reporting government are reported as a reduction of the related liability, rather than as an expenditure.

b. Fund Financial Statements

The underlying accounting system of the District is organized and operated on the basis of separate funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Fund financial statements for the primary government's governmental funds are presented after the government-wide financial statements. These statements display information about major funds individually.

Governmental Funds

The District classifies fund balance according to Governmental Accounting Standards Board Statement 54 – Fund Balance Reporting and Governmental Fund Type Definitions. The Statement requires the fund balance for governmental funds to be reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2. Measurement Focus and Basis of Accounting (Continued)

b. Fund Financial Statements (Continued)

Governmental Funds (Continued)

The District has various policies governing the fund balance classifications.

Nonspendable Fund Balance – This classification consists of amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact.

Assigned Fund Balance – This classification consists of the Board of Supervisors' intent to be used for specific purposes, but are neither restricted nor committed. The assigned fund balances can also be assigned by the District's management company.

Fund Balance Spending Hierarchy – For all governmental funds except special revenue funds, when restricted, committed, assigned, and unassigned fund balances are combined in a fund, qualified expenditures are paid first from restricted or committed fund balance, as appropriate, then assigned and finally unassigned fund balances.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are considered to be available when they are collected within the current period or soon thereafter, to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. Interest associated with the current fiscal period is considered to be an accrual item and so has been recognized as revenue of the current fiscal period.

Under the current financial resources measurement focus, only current assets and current liabilities are generally included on the balance sheet. The reported fund balance is considered to be a measure of "available spendable resources". Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

Because of their spending measurement focus, expenditure recognition for governmental fund types excludes amounts represented by non-current liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as governmental fund type expenditures or fund liabilities.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2. Measurement Focus and Basis of Accounting (Continued)

b. Fund Financial Statements (Continued)

Governmental Funds (Continued)

Amounts expended to acquire capital assets are recorded as expenditures in the year that resources are expended, rather than as fund assets. The proceeds of long-term debt are recorded as an other financing source rather than as a fund liability.

Debt service expenditures are recorded only when payment is due.

3. Basis of Presentation

a. Governmental Major Funds

General Fund – The General Fund is the primary operating fund of the District. It is used to account for all financial resources except those required to be accounted for in other funds.

Debt Service Fund – The Debt Service Fund is used to account for the accumulation of resources for the annual payment of principal and interest on long-term debt for the Series 2008A Bonds.

b. Non-current Governmental Assets/Liabilities

GASB Statement 34 requires that non-current governmental assets, such as land and buildings, and non-current governmental liabilities, such as general obligation bonds, be reported in the governmental activities column in the government-wide Statement of Net Position.

4. Assets, Liabilities, and Net Position or Equity

a. Cash and Investments

Florida Statutes require state and local governmental units to deposit monies with financial institutions classified as "Qualified Public Depositories," a multiple financial institution pool whereby groups of securities pledged by the various financial institutions provide common collateral from their deposits of public funds. This pool is provided as additional insurance to the federal depository insurance and allows for additional assessments against the member institutions, providing full insurance for public deposits.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

4. Assets, Liabilities, and Net Position or Equity (Continued)

a. Cash and Investments (Continued)

The District maintains deposits with “Qualified Public Depositories” as defined in Chapter 280, Florida Statutes. All Qualified Public Depositories must place with the Treasurer of the State of Florida Securities in accordance with collateral requirements determined by the State’s Chief Financial Officer. In the event of default by a Qualified Public Depository, the State Treasurer will pay public depositors all losses. Losses in excess of insurance and collateral will be paid through assessments between all Qualified Public Depositories.

The District is authorized to invest in those financial instruments as established by Section 218.415, Florida Statutes. The authorized investments consist of:

1. Direct obligations of the United States Treasury;
2. The Local Government Surplus Funds Trust or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperative Act of 1969;
3. Interest-bearing time deposits or savings accounts in authorized qualified public depositories;
4. Securities and Exchange Commission, registered money market funds with the highest credit quality rating from a nationally recognized rating agency.

b. Restricted Assets

Certain net positions of the District will be classified as restricted on the statement of net position because their use is limited either by law through constitutional provisions or enabling legislation; or by restrictions imposed externally by creditors. In a fund with both restricted and unrestricted net position, qualified expenses are considered to be paid first from restricted net position and then from unrestricted net position.

c. Capital Assets

Capital assets, which include land and infrastructure, are reported in governmental activities.

The District defines capital assets as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of one year. The valuation basis for all assets is historical cost.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend its useful life are not capitalized.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

4. Assets, Liabilities, and Net Position or Equity (Continued)

c. Capital Assets (Continued)

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Depreciation of capital assets is computed and recorded by utilizing the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows:

Infrastructure	20-40 years
----------------	-------------

d. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line or effective interest method. Bonds payable are reported net of these premiums or discounts. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as current period expenses.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

e. Budgets

Budgets are prepared and adopted after public hearings for the governmental funds, pursuant to Chapter 190, Florida Statutes. The District utilizes the same basis of accounting for budgets as it does for revenues and expenditures in its various funds. Formal budgets are adopted for the general fund. The legal level of budgetary control is at the fund level. As a result, deficits in the budget columns of the accompanying financial statements may occur. All budgeted appropriations lapse at year end.

NOTE B – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

1. Explanation of Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position

“Total fund balances” of the District’s governmental funds, \$385,421, differs from “net position” of governmental activities, \$7,205,221, reported in the Statement of Net Position. This difference primarily results from the long-term economic focus of the Statement of Net Position versus the current financial resources focus of the Governmental Fund Balance Sheet. The effect of the differences is illustrated below.

Capital related items

When capital assets (land and infrastructure that are to be used in governmental activities) are purchased or constructed, the cost of those assets is reported as expenditures in governmental funds. However, the Statement of Net Position included those capital assets among the assets of the District as a whole.

Land	\$ 6,317,127
Infrastructure	4,862,861
Accumulated depreciation	<u>(2,754,165)</u>
Total	<u>\$ 8,425,823</u>

Long-term debt transactions

Long-term liabilities applicable to the District’s governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. All liabilities (both current and long-term) are reported in the Statement of Net Position. Balances at September 30, 2024 were:

Bonds payable	<u>\$ (1,555,000)</u>
---------------	-----------------------

Accrued interest

Accrued liabilities in the Statement of Net Position differ from the amount reported at the fund level due to the accrued interest on bonds.

Accrued interest	<u>\$ (51,023)</u>

NOTE B – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (CONTINUED)

2. Explanation of Differences Between the Governmental Fund Operating Statements and the Statement of Activities

The “net change in fund balances” for government funds, \$46,567, differs from the “change in net position” for governmental activities, \$(62,098), reported in the Statement of Activities. The differences arise primarily from the long-term economic focus of the Statement of Activities versus the current financial resources focus of the governmental funds. The effect of the differences is illustrated below.

Capital related transactions

Governmental funds report capital outlays as expenditures, however, at the government-wide level, the cost of these assets is allocated over their estimated useful lives and reported as depreciation. As a result net position decreases by the amount of depreciation charged for the current year.

Depreciation	<u>\$ (175,798)</u>
--------------	---------------------

Long-term debt transactions

Repayment of long-term liabilities are reported as expenditures at the fund level but such repayments reduce liabilities at the government-wide level.

Bond principal payments	<u>\$ 65,000</u>
-------------------------	------------------

Other debt transactions

Some expenses reported at the government-wide level do not require the use of current financial resources, therefore, are not reported as expenditures at the fund level.

Net decrease in accrued interest payable	<u>\$ 2,133</u>

NOTE C – CASH AND INVESTMENTS

All deposits are held in qualified public depositories and are included on the accompanying balance sheet as cash and investments.

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a formal deposit policy for custodial credit risk; however, they follow the provisions of Chapter 280, Florida Statutes regarding deposits and investments. As of September 30, 2024, the District's bank balance was \$163,735 and the carrying value was \$160,725. Exposure to custodial credit risk was as follows. The District maintains all deposits in a qualified public depository in accordance with the provisions of Chapter 280, Florida Statutes, which means that all deposits are fully insured by Federal Depositors Insurance or collateralized under Chapter 280, Florida Statutes.

Investments

As of September 30, 2024, the District had the following investments and maturities:

<u>Investment</u>	<u>Maturities</u>	<u>Fair Value</u>
Managed Money Market	N/A	<u>\$ 229,696</u>

The District categorizes its fair value measurements within the fair value hierarchy recently established by generally accepted accounting principles. The fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. The District uses a market approach in measuring fair value that uses prices and other relevant information generated by market transactions involving identical or similar assets, liabilities, or groups of assets and liabilities.

Assets or liabilities are classified into one of three levels. Level 1 is the most reliable and is based on quoted price for identical assets, or liabilities, in an active market. Level 2 uses significant other observable inputs when obtaining quoted prices for identical or similar assets, or liabilities, in markets that are not active. Level 3 is the least reliable and uses significant unobservable inputs that uses the best information available under the circumstances, which includes the District's own data in measuring unobservable inputs.

The Managed Money Market is considered a mutual fund asset type for applying the criteria noted in the paragraph above and is considered a level 1 asset.

The District's investment policy allows management to invest funds in investments permitted under Section 218.415, Florida Statutes.

Buckeye Park Community Development District
NOTES TO FINANCIAL STATEMENTS
September 30, 2024

NOTE C – CASH AND INVESTMENTS (CONTINUED)

Interest Rate Risk

The bond indenture determines the allowable investments and maturities, while any surplus funds are covered by the alternative guidelines and are generally of a short duration thus limiting the District's exposure to interest rate risk.

Credit Risk

The District's investments are limited by State statutory and bond compliance requirements. As of September 30, 2024, the District did not own any investments which were rated.

Concentration of Credit Risk

The District places no limit on the amount it may invest in any one issuer. As of September 30, 2024, 100% of the District's investments are invested in Managed Money Market.

The types of deposits and investments and their level of risk exposure as of September 30, 2024 were typical of these items during the fiscal year then ended. The District considers any decline in fair value for certain investments to be temporary. In addition, the District has the ability to hold investments until its maturity date if the fair value is less than cost. The District's investments are recorded at fair value.

NOTE D – CAPITAL ASSETS

The following is a summary of changes in the capital assets for the year ended September 30, 2024:

Capital Improvement Revenue Bonds Series 2008A

Significant Bond Provisions

The Series 2008A Bonds are subject to redemption at the option of the District prior to their maturity, in whole or in part, at any time after May 1, 2018 at a redemption price equal to the principal amount of the Series 2008A Bonds to be redeemed, together with accrued interest to the date of redemption. The Series 2008A Bonds are subject to extraordinary mandatory redemption prior to maturity in the manner determined by the Bond Registrar if certain events occurred as outlined in the Trust Indenture.

The Trust Indenture established certain amounts be maintained in a reserve account. In addition, the Trust Indenture has certain restrictions and requirements relating principally to the use of proceeds to pay for the infrastructure improvements and the procedures to be followed by the District on assessments to property owners. The District agrees to levy special assessments in annual amounts adequate to provide payment of debt service and to meet the reserve requirements.

Depository Funds

The bond resolution establishes certain funds and determines the order in which revenues are to be deposited into these funds. A description of the significant funds, including their purposes, is as follows:

Reserve Fund – The 2008A Reserve Account was funded from the proceeds of the Series 2008A Bonds in amounts equal to 8.71 percent of the outstanding Series 2008A Bonds. Monies held in the reserve accounts will be used only for the purposes established in the Trust Indenture.

The following is a schedule of required reserve deposits as of September 30, 2024:

NOTE F – SPECIAL ASSESSMENT REVENUES

Special assessment revenues recognized for the 2023-2024 fiscal year were levied in May 2023. All assessments are collected by the Tax Collector and are due and payable on November 1. Per Section 197.162, Florida Statutes discounts are allowed for early payment at the rate of 4% in November, 3% in December, 2% in January and 1% in February. Assessments paid in March are without discount.

All unpaid assessments become delinquent as of April 1. Virtually all unpaid assessments are collected via the sale of tax certificates on, or prior to, June 1; therefore, there were no material assessments receivable at fiscal year end.

NOTE G – RISK MANAGEMENT

The government is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the government carries commercial insurance. Settled claims from these risks have not exceeded commercial insurance coverage over the past three years.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Supervisors
Buckeye Park Community Development District
Manatee County, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements, as listed in the table of contents, of Buckeye Park Community Development District, as of and for the year ended September 30, 2024, and the related notes to the financial statements, which collectively comprise the basic financial statements and have issued our report thereon dated March 21, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit, we considered Buckeye Park Community Development District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Buckeye Park Community Development District's internal control. Accordingly, we do not express an opinion on the effectiveness of Buckeye Park Community Development District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

To the Board of Supervisors
Buckeye Park Community Development District

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Buckeye Park Community Development District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

collection invoice. In the event that an assessment payment is not timely made, the whole assessment – including any remaining partial, deferred payments for Fiscal Year 2025/2026, shall immediately become due and payable; shall accrue interest, penalties in the amount of one percent (1%) per month, and all costs of collection and enforcement; and shall either be enforced pursuant to a foreclosure action, or, at the District’s sole discretion, collected pursuant to the Uniform Method on a future tax bill, which amount may include penalties, interest, and costs of collection and enforcement. RE: HB7013 -Special Districts Performance Measures and Standards Reporting

To enhance accountability and transparency, new regulations were established for all special districts, by the Florida Legislature, during their 2024 legislative session. Starting on October 1, 2024, or by the end of the first full fiscal year after its creation (whichever comes later), each special district must establish goals and objectives for each program and activity, as well as develop performance measures and standards to assess the achievement of these goals and objectives. Additionally, by December 1 each year (initial report due on December 1, 2025), each special district is required to publish an annual report on its website, detailing the goals and objectives achieved, the performance measures and standards used, and any goals or objectives that were not achieved.

District Management has identified the following key categories to focus on for Fiscal Year 2026 and develop statutorily compliant goals for each:

- Community Communication and Engagement
- Financial Transparency and Accountability

Additionally, special districts must provide an annual reporting form to share with the public that reflects whether the goals & objectives were met for the year. District Management has streamlined these requirements into a single document that meets both the statutory requirements for goal/objective setting and annual reporting.

The proposed goals/objectives and the annual reporting form are attached as exhibit A to this memo. District Management recommends that the Board of Supervisors adopt these goals and objectives to maintain compliance with HB7013 and further enhance their commitment to the accountability and transparency of the District.
