Subject: Proposal for clean up and removal for walking / kayak path.

Dear James Ward - district manager- Tern Bay CCC

I hope this message finds you well. I recently had a conversation with Tara regarding a potential project focused on restoring the walking path that connects your properties to the kayak ramp from the golf course.

After assessing the area and discussing the community's needs, we have agreed on a plan to clear and widen the path, thereby enhancing its definition and accessibility for residents. This initiative will involve trimming back trees and removing debris to revitalize the space, creating an inviting environment for the community to enjoy. The total project cost, including disposal fees, and brush hogging the ground will amount to \$5,900.00.

I look forward to the opportunity to work together and enhance the beauty of your properties.

Best regards,

Dennis DeLuca
