Wentworth Estates CDD at Treviso Bay Waterway Inspection Report

Reason for Inspection: Routine Scheduled

Inspection Date: 2025-10-28

Prepared for:

Wentworth Estates CDD at Treviso Bay
Treviso Bay Clubhouse, 9800 Treviso Bay Boulevard
Naples, Florida 34113

Prepared by:

Mason Maher, Field Operations Manager- Environmental Scientist

Ft. Myers Field Office

MANAGEMENT/COMMENTS SUMMARY	17-19
SITE MAP	20

Site: 1**Comments:**

Site looks good

Shoreline is well maintained.
Algae and submerged vegetation
are at controlled levels.

Action Required:

Routine maintenance next visit

Target:

Species non-specific

**Site: 2****Comments:**

Site looks good

Shoreline is well maintained.
Algae and submerged vegetation
are at controlled levels.

Action Required:

Routine maintenance next visit

Target:

Species non-specific

**Site: 3****Comments:**

Normal growth observed

Shoreline is well maintained.
Minor patches of regrowth
observed on bank. Algae and
submerged vegetation are at
controlled levels.

Action Required:

Routine maintenance next visit

Target:

Torpedograss

Site: 4**Comments:**

Site looks good
Shoreline is well maintained.
Submersed vegetation is at controlled levels.

Action Required:

Routine maintenance next visit

Target:

Species non-specific

**Site: 5****Comments:**

Normal growth observed
Shoreline is well maintained.
Algae and submersed vegetation are at controlled levels.

Action Required:

Routine maintenance next visit

Target:

Torpedograss

**Site: 6****Comments:**

Normal growth observed
Shoreline is well maintained.
Algae and submersed vegetation are at controlled levels.

Action Required:

Routine maintenance next visit

Target:

Species non-specific

Site: 7

Comments:

Normal growth observed

Some areas of torpedo grass observed along shoreline and within littorals. Algae and submerged vegetation are at controlled levels.

Action Required:

Routine maintenance next visit

Target:

Torpedograss

Site: 8

Comments:

Site looks good

Shoreline is well maintained. Minor submerged algae present at the bottom of lake.

Action Required:

Routine maintenance next visit

Target:

Sub-surface algae

Site: 9

Comments:

Normal growth observed

Minor regrowth of torpedo grass observed along shoreline. Algae and submerged vegetation are at controlled levels.

Action Required:

Routine maintenance next visit

Target:

Torpedograss

Site: 10**Comments:**

Normal growth observed

Shoreline is well maintained.
Algae and submerged vegetation
are at controlled levels.

Action Required:

Routine maintenance next visit

Target:

Shoreline weeds

**Site: 11****Comments:**

Normal growth observed

Shoreline is well maintained with
some areas of regrowth present.
Algae and submersed vegetation
is at controlled levels.

Action Required:

Routine maintenance next visit

Target:

Torpedograss

**Site: 12****Comments:**

Treatment in progress

Shoreline is well maintained.
Algae is at controlled levels.
Submerged vegetation present
and is being treated.

Action Required:

Routine maintenance next visit

Target:

Submersed vegetation

Site: 13**Comments:**

Treatment in progress

Shoreline is well maintained.
Submerged vegetation present
and receiving treatment.

Action Required:

Routine maintenance next visit

Target:

Submersed vegetation

**Site: 14****Comments:**

Treatment in progress

Shoreline is well maintained.
Submerged vegetation is present
and receiving treatment.

Action Required:

Routine maintenance next visit

Target:

Submersed vegetation

**Site: 15****Comments:**

Site looks good

Shoreline is well maintained.
Algae and submerged vegetation
are at controlled levels.

Action Required:

Routine maintenance next visit

Target:

Species non-specific

Site: 16**Comments:**

Site looks good

Shoreline is well maintained.
Algae and submerged vegetation
are at controlled levels.

Action Required:

Routine maintenance next visit

Target:

Species non-specific

**Site: 17****Comments:**

Site looks good

Shoreline is well maintained.
Algae and submerged vegetation
are at controlled levels.

Action Required:

Routine maintenance next visit

Target:

Species non-specific

**Site: 18****Comments:**

Requires attention

Surface algae present and requires
treatment. Shoreline weeds are
well maintained.

Action Required:

Treat within 7 days

Target:

Surface algae

Site: 19**Comments:**

Requires attention

Shoreline is well maintained.
Submerged Charra algae and
surface algae present and require
treatment.

Action Required:

Treat within 7 days

Target:

Muskgrass

**Site: 20****Comments:**

Site looks good

Shoreline is well maintained.
Algae and submerged vegetation
are at controlled levels.

Action Required:

Routine maintenance next visit

Target:

Species non-specific

**Site: 21****Comments:**

Normal growth observed

Shoreline is well maintained.
Minor surface/planktonic algae
present.

Action Required:

Routine maintenance next visit

Target:

Surface algae

Site: 22**Comments:**

Normal growth observed

Shoreline is well maintained.
Charra present in lake and
requires treatment.

Action Required:

Treat within 7 days

Target:

Muskgrass

**Site: 23****Comments:**

Site looks good

Shoreline is well maintained.
Algae and submerged vegetation
are at controlled levels.

Action Required:

Routine maintenance next visit

Target:

Species non-specific

**Site: 24****Comments:**

Normal growth observed

Shoreline is well maintained.
Minor surface algae present
around perimeter of the lake.

Action Required:

Routine maintenance next visit

Target:

Surface algae

Site: 25**Comments:**

Site looks good

Shoreline is well maintained.
Algae and submersed vegetation
are at controlled levels.

Action Required:

Routine maintenance next visit

Target:

Species non-specific

**Site: 26****Comments:**

Normal growth observed

Shoreline is well maintained.
Some areas of submersed
vegetation present in lake.

Action Required:

Treat within 7 days

Target:

Submersed vegetation

**Site: 27****Comments:**

Normal growth observed

Shoreline is well maintained.
Submersed vegetation present in
areas of the lake.

Action Required:

Routine maintenance next visit

Target:

Submersed vegetation

Site: 28**Comments:**

Site looks good

Shoreline is well maintained.
Submersed vegetation and algae
are at controlled levels.

Action Required:

Routine maintenance next visit

Target:

Species non-specific

**Site: 29****Comments:**

Site looks good

Shoreline is well maintained.
Algae and submersed vegetation
are at controlled levels.

Action Required:

Routine maintenance next visit

Target:

Species non-specific

**Site: 30****Comments:**

Site looks good

Shoreline is well maintained.
Submersed vegetation and algae
are at controlled levels.

Action Required:

Routine maintenance next visit

Target:

Species non-specific

Site: 31**Comments:**

Site looks good

Shoreline is well maintained.
Algae and submersed vegetation
are at controlled levels.

Action Required:

Routine maintenance next visit

Target:

Species non-specific

**Site: 32****Comments:**

Normal growth observed

Shoreline is well maintained.
Minor patches of charra present in
lake.

Action Required:

Routine maintenance next visit

Target:

Muskgrass

**Site: 33****Comments:**

Normal growth observed

Shoreline is well maintained.
Algae present within littorals.
Areas of submersed vegetation
present in lake.

Action Required:

Routine maintenance next visit

Target:

Submersed vegetation

Site: 34**Comments:**

Normal growth observed

Shoreline is well maintained.
Submerged vegetation present in
a few areas of the lake.

Action Required:

Treat within 7 days

Target:

Submersed vegetation

**Site: 35****Comments:**

Normal growth observed

Shoreline has minimal weed
regrowth. Algae and submersed
vegetation are at controlled levels.

Action Required:

Routine maintenance next visit

Target:

Shoreline weeds

**Site: 36****Comments:**

Normal growth observed

Shoreline is well maintained.
Submersed vegetation is at
controlled levels. Small amount
of surface algae in littorals.

Action Required:

Routine maintenance next visit

Target:

Species non-specific

Site: 37**Comments:**

Site looks good

Shoreline is well maintained.
Algae and submerged vegetation
are at controlled levels.

Action Required:

Routine maintenance next visit

Target:

Species non-specific

**Site: 38****Comments:**

Normal growth observed

Shoreline is well maintained.
Some regrowth of shoreline
weeds observed.

Action Required:

Routine maintenance next visit

Target:

Shoreline weeds

**Site: 39****Comments:**

Site looks good

Shoreline is well maintained.
Algae and submerged vegetation
are at controlled levels.

Action Required:

Routine maintenance next visit

Target:

Species non-specific

Site: 40**Comments:**

Site looks good

Shoreline is well maintained.
Algae and submerged vegetation
are at controlled levels.

Action Required:

Routine maintenance next visit

Target:

Species non-specific

**Site: 41****Comments:**

Site looks good

Shoreline is well maintained.
Algae and submerged vegetation
are at controlled levels.

Action Required:

Routine maintenance next visit

Target:

Shoreline weeds

**Site: 42****Comments:**

Requires attention

Shoreline is well maintained.
Some surface algae and
submerged vegetation present in
and around littorals.

Action Required:

Routine maintenance next visit

Target:

Surface algae

Management Summary

- Overall the lakes are in good condition. There is minimal charra regrowth throughout the lakes in the community.
- Shoreline weeds are minimal across the entire community.
- Surface algae is very minimal. Most of the algae issues are located in and around the littorals as the water levels drop.
- Recommend continuing adding lake dye to the most problematic lakes to shade out the lakes and prevent future growth of the submersed vegetation and charra.
- Next inspection report will be in February 2026
